BILLING CODE 3110–01–P**OFFICE OF MANAGEMENT AND BUDGET****Privacy Act of 1974; System of Records****AGENCY:** Office of Management and Budget.**ACTION:** Rescindment of system of records notice.

SUMMARY: The Office of Management and Budget is discontinuing two systems of records, OMB/ADSER/02, Staff Parking Application File and OMB/PERSL/01, Recruiting Records. For the Staff Parking Application File SORN (OMB/ADSER/02), OMB no longer processes or issues parking permits, and as such, does not maintain this system. The Recruiting Records SORN (OMB/PERSL/01) is no longer needed because the Office of Personnel Management issued a government-wide SORN (OPM/GOVT–5) after OMB issued the Recruiting Records SORN in 2000. OPM/GOVT–5 governs all of the records contained in OMB's 2000 Recruiting Records SORN.

DATES: This notice shall be applicable immediately.**ADDRESSES:** You may submit comments through *regulations.gov*.

Instructions: All submissions must contain the subject heading “Rescissions.”

Privacy Act Statement: OMB is issuing this proposed action pursuant to 5 U.S.C. 552(a). Submission of comments is voluntary. Information you provide will be used to inform sound decision-making regarding this proposed notice. Please note that all submissions received in response to this notice may be posted on <https://www.regulations.gov/> or otherwise released in their entirety, including any personal and business confidential information provided. Do not include in your submissions any copyrighted material; information of a confidential nature, such as personal or proprietary information; or any information you would not like to be made publicly available. The OMB System of Records Notice, OMB Public Input System of Records, OMB/INPUT/01, 88 FR 20913, July 3, 2023 (<https://www.federalregister.gov/documents/2023/04/07/>

2023-07452/privacy-act-of-1974-system-of-records), includes a list of routine uses associated with the collection of this information.

FOR FURTHER INFORMATION CONTACT: For questions about this proposed action, please contact Shraddha A. Upadhyaya by email at SORN@omb.eop.gov or (202) 395–9225. You must include “Rescissions” in the subject line.

SUPPLEMENTARY INFORMATION: In accordance with the Privacy Act of 1974, OMB conducted a review of its Privacy Act systems of records and determined that the Staff Parking Application File, OMB/ADSER/02 can be discontinued because records related to staff parking are no longer collected or maintained by OMB. Additionally, OMB/PERSL/01, Recruiting Records can be discontinued because this system of records notice was published in March, 2000, and subsequently OPM issued a system of records notice (OPM/GOVT–5) which governs all of the records previously contained within OMB/PERSL/01.

SYSTEM NAME AND NUMBER:

Staff Parking Application File (OMB/ADSER/02) and Recruiting Records (OMB/PERSL/01).

HISTORY:

Both OMB/ADSER/02, Staff Parking Application File, and OMB/PERSL/01, Recruiting Records, were most recently published on Thursday, March 20, 2000 in the **Federal Register** at 65 FR 16976–16977.

SUPPLEMENTARY INFORMATION:**I. Discussion**

In accordance with section 2.106 of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC is providing notice of the issuance of Construction Permit No. CPRR–124 to ACU. The construction permit, which is immediately effective, authorizes ACU to construct a research reactor in the Gayle and Max Dillard Science and Engineering Research Center on the ACU campus in Abilene, Texas, as described in ACU's construction permit application, as supplemented. With respect to the construction permit application filed by ACU, the NRC staff performed an environmental review and a safety review, and its evaluations and

conclusions are documented in an environmental assessment and a safety evaluation, respectively. Based, in part, on these documents, the NRC found that the applicable standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission’s regulations have been met. The NRC also found that any required notifications to other agencies or bodies have been duly made and that, among other things, there is reasonable assurance that the activities authorized by the construction permit will be

conducted in compliance with the rules and regulations of the Commission. On the basis of the foregoing, the NRC found that there is reasonable assurance that taking into consideration siting criteria, the proposed facility can be constructed and operated at the proposed location without undue risk to the health and safety of the public, subject to the conditions listed in the construction permit. Furthermore, the NRC found that ACU is technically and financially qualified to engage in the activities authorized and that the

issuance of the construction permit will not be inimical to the common defense and security or to the health and safety of the public. Finally, the NRC found that the applicable requirements of subpart A of 10 CFR part 51 have been satisfied. Accordingly, the immediately effective construction permit was issued on September 16, 2024.
