Administration for Community Living

Announcing the Intent To Award a Sole Source Supplement to the National Association of Councils on Developmental Disabilities (NACDD)

AGENCY: Administration for Community
Living, HHS.

ACTION: Notice.

SUMMARY: The Administration for
Community Living (ACL) is announcing
the award of a sole-source supplement
for the Bridging Aging and Disability
Networks cooperative agreement. ACL's
Office of Supportive and Caregiver
Services (OSCS), Administration on
Aging (AoA) is collaborating with the
Projects of National Significance, the
Administration on Disabilities (AoD) to
provide a \$180,478 supplement to the
Bridging Aging and Disability grant.
This grant is awarded to the NACDD,
who is partnering with the Institute on
Disability and Human Development at
the University of Illinois-Chicago, the
Lurie Institute for Disability Policy at
Brandeis University, The Arc, and US
Aging—the national association
representing and supporting the
network of Area Agencies on Aging
(AAAs) and Title VI Native American
Aging Programs. The goal of the grant is
to strengthen the collaboration between
aging and disability networks to better
support individuals with intellectual
and developmental disabilities (I/DD)
and their family caregivers in future
planning as they age. The supplemental
funding will be used to additionally
support aging caregivers of adults with
I/DD and will enhance the work of the
17 State Consortia teams to more
directly build capacity of AAAs to serve
adults with I/DD as they age and their
aging caregivers. The administrative
supplement for FY 2024 will be in the
amount of \$180,478, bringing the total
award for FY 2024 to \$600,000.00.

FOR FURTHER INFORMATION CONTACT: For
further information or comments
regarding this program supplement,
contact Larissa Crossen, U.S.
Department of Health and Human
Services, Administration for
Community Living, telephone (202)

795–7333; email Larissa.crossen@acl.hhs.gov

SUPPLEMENTARY INFORMATION: The
purpose of the supplemental funding is
to additionally support aging caregivers
of adults with I/DD and will enhance
the work of the 17 State Consortia
teams. A portion of the funding
(estimated 50%) will be used to pay for
existing workplan activities of the
grantee, particularly where there is
overlap in the existing work to bridge
the aging and disability networks to
support aging caregivers of adults with
I/DD. The remainder of the funding
(estimated to be 50%) will be used to
enhance the work of the 17 State
Consortia teams to more directly build
capacity of AAAs to serve adults with
I/DD as they age and their aging
caregivers.

Program Name: Bridging Aging and
Disabilities Networks.

Recipient: NACDD.

Period of Performance: The
supplement award will be issued for the
fourth year of a five-year project period,
September 30, 2024, through September
29, 2025.

Award Amount: \$180,478.

Award Type: Cooperative Agreement.

Statutory Authority: This program is
authorized under the Developmental
Disabilities Assistance and Bill of Rights
Act of 2000, Title I, Subtitle E.

CFDA Number: 93.631 Discretionary
Projects.

Basis for Award: NACDD is currently
funded to carry out the objectives of this
project, Bridging Aging and Disability
Networks, and has completed three
years of work. ACL believes it is in the
best interest of the Federal Government
to supplement the current grantee's
existing project. Establishing a new
grant project at this time would be
potentially disruptive to the current
work already well under way. Further,
it could create unintended duplication
of effort and missed opportunities for
greater coordination between the aging
and disability networks.

Dated: September 16, 2024.

Alison Barkoff,

*Principal Deputy Administrator for the
Administration for Community Living,
performing the delegable duties of the
Administrator and the Assistant Secretary for
Aging.*

SUPPLEMENTARY INFORMATION:

I. Background

FDA is issuing this draft guidance to describe recommended methodological approaches for chemical analysis for biocompatibility assessment of medical devices. The biocompatibility of medical devices is evaluated based on the duration of exposure and nature of contact with the body. Chemical characterization is one approach that manufacturers can consider when developing a strategy for the overall biocompatibility assessment of a device. Chemical characterization can be an alternative to biological testing for evaluating some biocompatibility endpoints. Use of chemical characterization can reduce the time

needed to complete biocompatibility testing, reduce animal testing, generate data on the chemical constituents of a device, and be used to evaluate multiple biocompatibility endpoints at once. FDA and other stakeholders have observed variability in the approaches of individual laboratories performing analytical chemistry testing that has resulted in inconsistent analytical chemistry reports. The recommendations in this guidance are intended to improve the consistency and reliability of analytical chemistry studies.

This draft guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on “Chemical Analysis for Biocompatibility Assessment of Medical Devices.” It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Electronic Access

Persons interested in obtaining a copy of the draft guidance may do so by downloading an electronic copy from the internet. A search capability for all Center for Devices and Radiological Health guidance documents is available at <https://www.fda.gov/medical-devices/device-advice-comprehensive-regulatory-assistance/guidance-documents-medical-devices-and-radiation-emitting-products>.
