

the definition of ISE Open/Close Trade Profile will provide additional clarity and specificity to the ISE rulebook, and nothing in the clarification changes the product or the way it functions, but rather describes the product exactly as it exists today. The Exchange also states that the fees included in this filing have been in effect since July 1, 2024, and waiver of the operative delay will allow application of those fees to continue uninterrupted. For these reasons, the Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission hereby waives the operative delay and designates the proposal operative upon filing.<sup>56</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
