

SAMHSA and its Centers will use the data collected for annual reporting required by GPRMA, to describe clients and individuals served and to summarize outputs and outcomes of grant program activities. SAMHSA and its Centers will use the data for annual reporting. SAMHSA’s report for each fiscal year will include actual results of performance monitoring for the three preceding fiscal years. Information collected through this request will allow SAMHSA to report on the results of

these performance outcomes as well as be consistent with SAMHSA-specific performance domains, and to assess the accountability and performance of its discretionary grant programs. The information collected through this request will allow SAMHSA to improve its ability to assess the impact of its programs on key outcomes of interest and to gather vital descriptive characteristics about clients served by discretionary grant programs.

Currently, there are 76,209 total burden hours in the two data collections. SAMHSA is requesting an increase to 139,178 hours to account for additional grantees having reporting requirements and to account more fully for the time needed to report quarterly on the IPP indicators. The proposed estimate of time to collect data and complete the instruments is shown in table 1.

SUPPLEMENTARY INFORMATION:

Background

Pursuant to 19 U.S.C. 1505 and Treasury Decision 85–93, published in the **Federal Register** on May 29, 1985 (50 FR 21832), the interest rate paid on applicable overpayments or

underpayments of customs duties must be in accordance with the Internal Revenue Code rate established under 26 U.S.C. 6621 and 6622. Section 6621 provides different interest rates applicable to overpayments: one for corporations and one for non-corporations.

The interest rates are based on the Federal short-term rate and determined by the Internal Revenue Service (IRS) on behalf of the Secretary of the Treasury on a quarterly basis. The rates effective for a quarter are determined during the first-month period of the previous quarter.

In Revenue Ruling 2024–18, the IRS determined the rates of interest for the calendar quarter beginning October 1, 2024, and ending on December 31, 2024. The interest rate paid to the Treasury for underpayments will be the Federal short-term rate (5%) plus three percentage points (3%) for a total of eight percent (8%) for both corporations and non-corporations. For overpayments made by non-corporations, the rate is the Federal short-term rate (5%) plus three percentage points (3%) for a total of eight percent (8%). For corporate overpayments, the rate is the Federal short-term rate (5%) plus two

percentage points (2%) for a total of seven percent (7%). These interest rates used to calculate interest on overdue accounts (underpayments) and refunds (overpayments) of customs duties remain the same as the previous quarter.

These interest rates are subject to change for the calendar quarter beginning January 1, 2025, and ending on March 31, 2025.
For the convenience of the importing public and U.S. Customs and Border

Protection personnel, the following list of IRS interest rates used, covering the period from July of 1974 to date, to calculate interest on overdue accounts and refunds of customs duties, is published in summary format.
