

Türkiye CVD order have 30 days after the date of this correction notice to submit new or amended entries of appearance. Commerce will then finalize the annual inquiry service lists five business days thereafter. For ease of administration, please note that Commerce requests that law firms with more than one attorney representing interested parties in a proceeding designate a lead attorney to be included on the annual inquiry service list.

Interested parties may request, in accordance with 19 CFR 351.213, that Commerce conduct an administrative review of the Lawn Mowers from China AD order or the Pasta from Türkiye CVD order within 30 days of publication of this correction notice.

Commerce will publish in the **Federal Register** a notice of “Initiation of Administrative Review of Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation” for requests received within 30 days of this correction notice. If Commerce does not timely receive a request for review of entries covered by the Lawn Mowers from China AD order or the Pasta from Türkiye CVD order, Commerce will instruct CBP to assess antidumping or countervailing duties on those entries at a rate equal to the cash deposit of estimated antidumping duties required on those entries at the time of entry, or withdrawal from warehouse, for consumption and to continue to collect the cash deposit previously ordered.

This notice is not required by statute but is published as a service to the international trade community.

Dated: September 19, 2024.

Scot Fullerton,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

International Trade Administration

United States-Mexico-Canada Agreement (USMCA), Article 10.12: Binational Panel Review: Notice of Request for Panel Review

AGENCY: United States Section, USMCA Secretariat, International Trade Administration, Department of Commerce.

ACTION: Notice of USMCA request for panel review.

SUMMARY: A Request for Panel Review was filed in the matter of Certain Softwood Lumber Products from

Canada: Final Results of the Countervailing Duty Administrative Review; 2022 with the U.S. Section of the USMCA Secretariat on September 18, 2024. The USMCA Secretariat has assigned case number USA-CDA-2024-10.12-03 to this request.

FOR FURTHER INFORMATION CONTACT:

Vidya Desai, United States Secretary, USMCA Secretariat, Room 2061, 1401 Constitution Avenue NW, Washington, DC 20230, 202-482-5438.

SUPPLEMENTARY INFORMATION: The final results of the investigation under review were determined by the United States Department of Commerce and were published in the **Federal Register** on August 19, 2024 (89 FR 67062).

Article 10.12 of chapter 10 of USMCA provides a dispute settlement mechanism involving trade remedy determinations issued by the Government of the United States, the Government of Canada, and the Government of Mexico. Following a Request for Panel Review, a Binational Panel is composed to review the trade remedy determination being challenged and issue a binding Panel Decision. There are established USMCA *Rules of Procedure for Article 10.12 (Binational Panel Reviews)*, which were adopted by the three governments for panels requested pursuant to Article 10.12(2) of USMCA which requires Requests for Panel Review to be published in accordance with Rule 40. For the complete Rules, please see https://can-mex-usa-sec.org/secretariat/agreement-accord-acuerdo/usmca-aceum-tmec/rules-regles-reglas/article-article-articulo_10_12.aspx?lang=eng.

The Rules provide that:

(a) A Party or interested person may challenge the final determination in whole or in part by filing a Complaint in accordance with Rule 44 no later than 30 days after the filing of the first Request for Panel Review (the deadline for filing a Complaint is October 18, 2024);

(b) A Party, an investigating authority or other interested person who does not file a Complaint but who intends to participate in the panel review shall file a Notice of Appearance in accordance with Rule 45 no later than 45 days after the filing of the first Request for Panel Review (the deadline for filing a Notice of Appearance is November 4, 2024);

(c) The panel review will be limited to the allegations of error of fact or law, including challenges to the jurisdiction of the investigating authority, that are set out in the Complaints filed in the panel review and to the procedural and substantive defenses raised in the panel review.

Dated: September 19, 2024.

Vidya Desai,

United States Secretary, USMCA Secretariat.

Determination of Overfishing or an Overfished Condition

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: This action serves as a notice that NMFS, on behalf of the Secretary of Commerce (Secretary), has found that Western Atlantic sailfish is now overfished and the Pribilof Islands blue king crab remains overfished. NMFS, on behalf of the Secretary, is required to provide this notice whenever it determines that a stock or stock complex is subject to overfishing, overfished, or approaching an overfished condition.

FOR FURTHER INFORMATION CONTACT:

Diana Perry, (301) 427-7863.

SUPPLEMENTARY INFORMATION: Pursuant to section 304(e)(2) of the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1854(e)(2), NMFS, on behalf of the Secretary, must notify councils, and publish a notice in the **Federal Register**, whenever it determines that a stock or stock complex is subject to overfishing, overfished, or approaching an overfished condition.

NMFS has determined that Western Atlantic sailfish is now overfished. This determination is based on the most recent international stock assessment, completed in 2023 and using data through 2021, which indicates that the biomass is less than the minimum stock size threshold (MSST). NMFS continues to work with the International Commission for the Conservation of Atlantic Tunas to rebuild this stock through development of an international rebuilding program.

NMFS has determined that Pribilof Islands blue king crab is still overfished. This determination is based on the most recent assessment, completed in 2023 and using data through 2023, which indicates that the mature male biomass is less than the MSST. NMFS continues to work with the North Pacific Fishery

Management Council to rebuild this stock.

Dated: September 19, 2024.

Since the delineation of the international maritime boundary line in 1984, also known as the Hague Line, the United States and Canada have collaborated closely to sustainably

manage shared transboundary fisheries resources, including Eastern Georges Bank cod, Eastern Georges Bank haddock, and Georges Bank yellowtail flounder stocks. In 2000, the TMGC was established to provide guidance to both countries on the management and shared catch advice for these transboundary fish stocks. The arrangement also allows for collaboration and the opportunity to provide feedback on domestic scientific processes while also coordinating research and enforcement activities.

Representatives from NOAA Fisheries and the New England Fishery Management Council serve on the U.S. delegation to the TMGC to recommend shared catch advice annually. Catch advice is based on the best scientific information available and an agreed upon resource sharing allocation formula that considers historical proportions of fishery landings by U.S. and Canadian fishermen, as well as resource distribution based on trawl surveys. The 2023 Transboundary Management Committee Guidance Document, which summarizes last year's meeting, can be located online at <https://www.nefmc.org/calendar/sep-11-12-2023-transboundary-management-guidance-committee-tmgc-meeting>.

Dated: September 19, 2024.
