SUPPLEMENTARY INFORMATION:

I. Background

Reclamation maintains the INTERIOR/WBR-31, Acreage Limitation, system of records. The purpose of this system is to obtain from landowners and lessees written information on their landholdings that is pertinent to their compliance with the ownership and full cost pricing provisions required by statute and regulations. The records are used by Reclamation to ensure contractually obligated irrigation districts and contract holders are following reporting and certification requirements of Federal reclamation law (Pub. L. 97-293).

DOI is publishing this revised notice to change the system number to reflect Reclamation's title; update the system manager and system location sections; expand on categories of individuals covered by the system, the categories of records and records source categories sections; update authorities for maintenance of the system; update the storage, safeguards, and records retention schedule; update the notification, records access and contesting procedures; reorganize the sections and provide general updates in accordance with the Privacy Act of 1974 and Office of Management and Budget (OMB) Circular A-108, *Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act*.

Additionally, Reclamation is changing the routine uses from a numeric to alphabetic list and is proposing to modify existing routine uses to provide clarity and transparency and reflect updates consistent with standard DOI routine uses. Routine use A was modified to further clarify disclosures to the Department of Justice or other

Federal agencies, when necessary, in relation to litigation or judicial proceedings. Routine use B has been modified to clarify disclosures to a congressional office to respond to or resolve an individual's request made to that office. Routine use D has been modified to allow Reclamation to refer matters to the appropriate Federal, State, local, or foreign agencies, or other public authority agencies responsible for investigating or prosecuting violations of, or for enforcing, or implementing, a statute, rule, regulation, order, or license. Routine use J was slightly modified to allow Reclamation to share information with appropriate Federal agencies or entities when reasonably necessary to prevent, minimize, or remedy the risk of harm to individuals or the Federal Government resulting from a breach in accordance with OMB Memorandum M-17-12, *Preparing for and Responding to a Breach of Personally Identifiable Information*.

Reclamation is proposing to add new routine uses C, E, F, G, H, I, L, M, and N to facilitate sharing of information with agencies and organizations to ensure the efficient management of all land, facilities, and waterbodies under Reclamation's jurisdiction, promote the integrity of the records in the system, or carry out a statutory responsibility of Reclamation or the Federal Government. Proposed routine use C facilitates sharing of information with the Executive Office of the President to respond to an inquiry by the individual to whom that record pertains. Proposed routine use E allows Reclamation to share information with an official of another Federal agency to assist in the performance of their official duties related to reconciling or reconstructing an individual's record. Proposed routine use F facilitates sharing of information related to hiring, issuance of a security clearance, or a license, contract, grant, or benefit. Proposed routine use G allows Reclamation to share information with the National Archives and Records Administration to conduct records management inspections. Proposed routine use H allows Reclamation to share information with external entities, such as State, territorial and local governments and Tribal organizations needed in response to court orders and/or for discovery purposes related to litigation. Proposed routine use I allows Reclamation to share information with an expert, consultant, grantee, shared service provider, or contractor (including employees of the contractor) of DOI that performs services requiring access to these records on DOI's behalf

to carry out the purposes of the system. Proposed routine use L allows Reclamation to share information with OMB during the coordination and clearance process in connection with legislative affairs. Proposed routine use M allows Reclamation to share information with the Department of the Treasury to recover debts owed to the United States. Routine use N allows Reclamation to share information with the news media and the public, with approval by the Public Affairs Officer and Senior Agency Official for Privacy in consultation with counsel if there is a legitimate public interest in the disclosure of the information.

Pursuant to the Privacy Act, 5 U.S.C. 552a(b)(12), DOI may disclose information from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)) to aid in the collection of outstanding debts owed to the Federal Government.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals' records. The Privacy Act applies to records about individuals that are maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act regulations at 43 CFR part 2, subpart K, and following the procedures outlined in the Records Access, Contesting Record, and Notification Procedures sections of this notice.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the existence and character of each system of records that the agency maintains and the routine uses of each system. The INTERIOR/Reclamation-31, Acreage Limitation, system of records notice is published in its entirety below. In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to OMB and to Congress.

You should be aware your entire comment including your personally identifiable information, such as your address, phone number, email address, or any other personal information in your comment, may be made publicly available at any time. While you may request to withhold your personally identifiable information from public review, we cannot guarantee we will be able to do so.
