

According to California statute, “dispense” means “to deliver a controlled substance to an ultimate user or research subject by or pursuant to the lawful order of a practitioner, including the prescribing, furnishing, packaging, labeling, or compounding necessary to prepare the substance for that delivery.” Cal. Health & Safety Code section 11010 (West 2024). Further, a “practitioner” means a person “licensed, registered, or otherwise permitted, to distribute, dispense, conduct research with respect to, or administer, a controlled substance in the course of professional practice or research in [the] state.” *Id.* section 11026(c).

Here, the undisputed evidence in the record is that Registrant currently lacks authority to practice as a physician assistant in California. As discussed above, an individual must be a licensed practitioner to dispense a controlled substance in California. Thus, because Registrant currently lacks authority to practice as a physician assistant in California and, therefore, is not currently authorized to handle controlled substances in California, Registrant is not eligible to maintain a DEA registration. Accordingly, the Agency will order that Registrant’s DEA registration be revoked.

Order

Pursuant to 28 CFR 0.100(b) and the authority vested in me by 21 U.S.C. 824(a), I hereby revoke DEA Certificate of Registration No. MS2342842 issued to Charles Sangmoah, P.A. Further, pursuant to 28 CFR 0.100(b) and the authority vested in me by 21 U.S.C. 823(g)(1), I hereby deny any pending applications of Charles Sangmoah, P.A., to renew or modify this registration, as well as any other pending application of Charles Sangmoah, P.A., for additional registration in California. This Order is effective October 28, 2024.

controlled substance in the course of professional practice.” 21 U.S.C. 802(21). Second, in setting the requirements for obtaining a practitioner’s registration, Congress directed that “[t]he Attorney General shall register practitioners . . . if the applicant is authorized to dispense . . . controlled substances under the laws of the State in which he practices.” 21 U.S.C. 823(g)(1). Because Congress has clearly mandated that a practitioner possess state authority in order to be deemed a practitioner under the CSA, DEA has held repeatedly that revocation of a practitioner’s registration is the appropriate sanction whenever he is no longer authorized to dispense controlled substances under the laws of the state in which he practices. *See, e.g., James L. Abstract: The LEMAS core survey, conducted every 3 to 4 years since 1987, is currently based on a nationally representative sample of approximately 3,500 general-purpose law enforcement agencies (LEAs). The 2024 LEMAS has been revised to remove questions to help reduce burden and increase clarity. The LEMAS survey has been used to

produce national estimates for a wide range of topics, including LEA responsibilities, operating expenditures, job functions of sworn and civilian employees, officer salaries and special pay, demographic characteristics of officers, weapons policies, education and training requirements, special units, and community policing activities. BJS plans to publish this information in reports and reference it when responding to queries from the U.S. Congress, Executive Office of the President, the U.S. Supreme Court, state officials, international organizations, researchers, students, the media, and others interested in criminal justice statistics.
