Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; 2024 Commercial Closure for Snowy Grouper in the South Atlantic

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS implements an accountability measure (AM) for the commercial harvest of snowy grouper in South Atlantic Federal waters. NMFS projects commercial landings of snowy

grouper will reach the commercial quota for the July through December season. Therefore, NMFS closes Federal waters in the South Atlantic for the commercial harvest of snowy grouper to protect the resource.

DATES: This temporary rule is effective from September 29, 2024, through December 31, 2024.

FOR FURTHER INFORMATION CONTACT: Rick Devictor, NMFS Southeast Regional Office, phone: 727-204-5518, email: rick.devictor@noaa.gov.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery of the South Atlantic includes snowy grouper and is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The FMP was prepared by the South Atlantic Fishery Management Council and NMFS, and is implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622. All weights described in this temporary rule are in gutted weight.

The commercial annual catch limit (ACL) for snowy grouper in 2024 is 106,174 pounds (lb) or 48,160 kilograms (kg). The commercial ACL is divided into two commercial quotas, with a separate quota for each 6-month fishing season. Seventy percent of the commercial ACL is allocated for the January through June commercial fishing season and that quota is 74,322 lb (33,712 kg) for 2024. The remaining 30 percent of the commercial ACL for the July through December fishing season is a quota of 31,852 lb (14,448 kg) for 2024 [50 CFR 622.190(a)(1)(i)(B) and (ii)(B)]. Any commercial quota remaining from the first season is added to the commercial quota in second season, but any commercial quota remaining from the second season is not carried forward into the next fishing year. The January through June quota was projected to be reached on June 4, 2024, and commercial harvest was closed (89 FR 47871, June 4, 2024). Subsequently, updated commercial harvest information showed that 8,035 lb (3,645 kg) of that quota was not harvested, and it was added to the 2024 commercial quota for the July through December season.

Under 50 CFR 622.193(b)(1), NMFS is required to close the commercial sector for snowy grouper when the commercial quota specified in 50 CFR 622.190(a)(1) is reached or is projected to be reached. NMFS projects that commercial landings of snowy grouper will reach the commercial quota for the 2024 July
