Need and Use of Information Collection: This is a request for OMB to approve the revised information collection for the Federally Funded Research Development Center Contract Administration System (FCAS) Vendor Portal. The National Cancer Institute (NCI) Office of Acquisitions (OA), located within the Office of the Director (OD) in the Office of Management (OM) at the National Cancer Institute (NCI), awards and administers contracts and simplifies acquisitions in support of the Institute’s mission to prevent, diagnose and treat cancer. During the acquisition process, the OA ensures that customer service is paramount and communications are open and continuous. Currently, requests and correspondence are sent to and received from vendors through email, except the FFRDC Contractor, who submits through the FCAS Vendor Portal, which is in production. To streamline processes, increase transparency, and gain efficiencies, the OA uses the FCAS vendor portal to replace processes

handled through emailing FCAS Vendor Portal Users to individual OA recipients. The FCAS Vendor Portal will serve as a one-stop shop for the transmission of requests, reports, deliverables, and other correspondence due to numerous research and development in support of R&D contracts as well as those contract

vehicles awarded using various Federal Acquisition Procedures, including but not limited to FAR Part 8, Required Sources of Supplies and Services, FAR Part 13, Simplified Acquisition Procedures, and FAR Part 12, Acquisition of Commercial Items. These reports and deliverables cover a wide variety of topics in the areas of cancer

research, including prevention, detection, diagnosis, and control.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 77.
