POLICY JUSTIFICATION

Poland—Sniper Advanced Targeting Pods

The Government of Poland has requested to buy thirty-four (34) AN/AAQ-33 Sniper Advanced Targeting Pods (ATP) with Shipping Containers. Also included are system support and support equipment; spare parts, consumables, accessories, and repair and return support; integration and test equipment and support; unclassified software delivery and support; unclassified Computer Program Identification Number (CPIN) systems; unclassified publications and technical documentation; personnel training and training equipment; U.S. Government and contractor engineering, technical and logistics support services; and other related elements of logistical and program support. The estimated total cost is \$124.7 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve the tactical effectiveness of the FA-50 fighter aircraft that Poland is buying from the Republic of Korea by enhancing its abilities to identify targets, track, and engage from a standoff distance; it will also increase interoperability with U.S. and NATO forces. Poland will have no difficulty absorbing these articles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Orlando, Florida. There are no known offset agreements

proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Poland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 23-37

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The AN/AAQ-33 Sniper Advanced Targeting Pod (ATP) or LITENING Targeting Pod is a single, lightweight targeting pod for military aircraft that provides positive target identification, autonomous tracking, Global Positioning System (GPS) coordinate generation, and precise weapons guidance from extended standoff ranges. It incorporates a high-definition mid-wave Forward-Looking Infrared (FLIR), dual-mode laser, visible-light high-definition television (HDTV), laser spot tracker, video data link (VDL), and a digital data recorder.

2. The highest level of classification of defense articles, components, and services included in this potential sale is UNCLASSIFIED.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Poland can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Poland.

POLICY JUSTIFICATION

Czech Republic—AH-1Z and UH-1Y Refurbishment/Modernization

The Government of the Czech Republic has requested to buy equipment and services to refurbish six (6) AH-1Z and two (2) UH-1Y Excess Defense Article (EDA) helicopters. This equipment and services will include: twenty-two (22) T-700 GE 401C engines (16 installed, 6 spares); fourteen (14) Honeywell Embedded Global Positioning System Inertial Navigation Systems (EGIs) w/Precise Positioning Service (PPS) (8 installed, 6 spares); four (4) M240 machine guns; and twenty-four (24) ARC-210 COMSEC radios. Also included is communication equipment; electronic warfare systems; support equipment; spare engine containers; flight training devices; Composite Maintenance trainer; spare and repair parts; tools and test equipment; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$650 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a NATO partner that is an important force for ensuring peace and stability in Europe.

The proposed sale will improve the Czech Republic's ability to develop and

maintain a strong and ready self-defense capability. The Czech Republic will have no difficulty absorbing these defense articles and services into its armed forces.

The proposed sale of this equipment and services will not alter the basic military balance in the region.

The principal contractors will be Bell Helicopter, Textron, Fort Worth, TX, and General Electric Company, Lynn, MA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of the proposed sale will require multiple trips by U.S. Government and contractor representatives to participate in program and technical reviews plus training and maintenance support in-country, on a temporary basis, for a period of sixty (60) months. It will also require three (3) contractor representatives to reside-in country for a period of two (2) years to support this program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 23-20

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AH-1Z and UH-1Y helicopter model have an integrated avionics system (IAS) which includes two (2) mission computers and an automatic flight control system. Each crew station has two (2) 8x6-inch multifunction liquid crystal displays (LCD) and one (1) 4.2x4.2-inch dual function LCD display. The communications suite will have COMSEC ARC 210 Ultra High Frequency/Very High Frequency (UHF/VHF) radios with associated communications equipment. The navigation suite includes a Precise Positioning Systems (PPS), Honeywell Embedded GPS Inertial Navigation System (EGI) (SAASM or upgraded equivalent), a digital map system, and a low-aspired air data subsystem, which allows weapons delivery when hovering.

2. The crew is equipped with the Optimized Top Owl (OTO) helmet-mounted sight and display system. The OTO has a Day Display Module (DDM) and a Night Display Module (NDM). The H-1 has survivability equipment including the AN/AAR-47 Missile Warning and Laser Detection System, AN/ALE-47 Counter Measure Dispensing System (CMDMS) and the AN/APR-39 Radar Warning Receiver (RWR)

to cover countermeasure dispensers, radar warning, incoming/on-way missile warning and on-fuselage laser-spot warning systems.

3. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that the Czech Republic can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of the Czech Republic.
