

October 25, 2024. However, to provide a reasonable cushion in the event of continued delays, Midwestern is requesting a 4-month extension of time.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Midwestern's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (NGA) (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,¹ the Commission will aim to issue an order acting on the request within 45 days.² The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.³ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act (NEPA).⁴ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.⁵ The Director of the Office of Energy Projects, or his or her designee, will act on all of those extension requests that are uncontested.

Northbrook Hydro Carolina II, LLC; Notice of Intent To Prepare an Environmental Assessment

On November 16, 2023, as supplemented on March 11, 2024, and April 30, 2024, Northbrook Hydro Carolina II, LLC filed an application to surrender the project license for the Bryson Hydroelectric Project No. 2601. The project is located on the Oconaluftee River in Swain County, North Carolina. The project does not occupy any Federal lands.

The project is located on the Oconaluftee River downstream of the Great Smoky Mountain National Park and the lands of the Eastern Band of Cherokee Indians (Qualla Boundary). The project boundary abuts the Qualla Boundary for 1.5 miles. The proposed mode of surrender would include disconnection from the utility interconnection point and the removal of the generators and turbines. The licensee would offer the generators, control equipment, and wiring for sale following decommissioning, or would properly dispose of the equipment. The proposal includes leaving the dam and associated structures intact and operational. The licensee intends to later deed ownership of the project to Mainspring Conservation Land Trust for potential future removal of the dam after the surrender is final.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the project.¹ The planned schedule for the completion of the EA is January 31, 2025. Revisions to the schedule may be made as appropriate. The EA will be issued and made available for review by all interested parties and a 30-day public comment period. All comments filed on the EA will be reviewed by staff and considered in the Commission's final decision on the proceeding.

Office of Public Participation Fundamentals for Participating in FERC Matters; Notice of Enhancements To eComment

Take notice that effective September 25, 2024, the Federal Energy Regulatory Commission's (Commission) electronic application for filing comments, called eComment, will include improved functionalities. The main improvement is that eComment will accept comments in the additional Docket Types: AD, RM, and PL, which the Commission uses for policy type proceedings of general applicability such as rulemakings. Other system enhancements include extending the 30-minute session time out to 60 minutes; supporting comments of up-to 10,000 characters; and removing certain special character restrictions from eComment that in the past prevented the submission of comments.

These system enhancements were developed in response to public comments filed in Docket No. AD21-9 for the establishment of the Office of Public Participation regarding streamlining the steps for individuals to participate in rulemakings.

The enhancements to eComment do not change or affect eFiling. eFiling will continue to accept comments for all the Docket Types it currently supports.

For more information about eComment and FERC online, please contact FERC Online Support or call local: 202-502-6652, toll-free: 866-208-3676. Please include a current mail address, telephone number, and email address.
