

boundary changes and CDP updates on a transaction basis as they occur over the years.

For the Census Bureau to complete this project, we would collect spatial data from tribal, state, and general-purpose local governments to improve the quality of the MAF/TIGER System outside the realm of BAS. The only burden on governments for the boundary quality project is in providing their spatial data.

Feedback

The Census Bureau is adding a feedback component to its geographic partnership programs to allow for the solicitation of feedback to improve the administration of the respective program and potentially reduce the future burden. Eligible governments may be asked to provide their feedback on materials, method(s) of data collection, manner of communications, and the usability of the program applications and tools.

Affected Public: Tribal, state, and general-purpose local governments in all fifty states, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands.

Frequency: Annual.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, U.S.C., Section 6.
