

NHD. Note that HydroAdd does not allow users to edit the NHD. Users are strictly limited to editing their own data.

Users must register at the HydroAdd website. When registering, users are required to fill out a profile with a username and email contact. This information is stored in the application database.

Revisions to HydroAdd are currently in development. These revisions include (a) allowing HydroAdd to use the latest hydrography product from the USGS 3D Hydrography Program (3DHP), (b) implementing an open-source hosting service for user data (GeoServer), rather than ArcGIS Online, (c) updating some of the underlying logic to speed GIS processing, and (d) updating the name of the tool to *HydroAdd3d*.

*Title of Collection:* Hydrography Addressing Tool.

*OMB Control Number:* 1028–0129.

*Form Number:* NA.

*Type of Review:* Revision of a currently approved collection.

*Respondents/Affected Public:* 200.

*Total Estimated Number of Annual Respondents:* 200.

*Total Estimated Number of Annual Responses:* 200.

*Estimated Completion Time per Response:* 1 hour.

*Total Estimated Number of Annual Burden Hours:* 200.

*Respondent's Obligation:* Voluntary.

*Frequency of Collection:* one time, or as needed if respondent business contact information changes.

*Total Estimated Annual Nonhour Burden Cost:* None.

An agency may not conduct or sponsor, nor is a person is required to respond to a collection of information unless it displays a currently valid OMB control number.

**Kimberly Mantey,**

*Director, National Geospatial Technical Operations Center.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[BLM\_AK\_FRN\_MO4500180029]

#### Boundary Establishment for Birch Creek National Wild and Scenic River, Bureau of Land Management, Alaska State Office, Yukon-Koyukuk Borough, Alaska

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** In accordance with the Wild and Scenic Rivers Act, the Bureau of Land Management (BLM), Alaska State Office, is transmitting the final boundary of Birch Creek National Wild and Scenic River to Congress.

**ADDRESSES:** The Birch Creek Wild and Scenic River Boundary description is available for review at <https://www.blm.gov/sites/default/files/docs/2024-06/BLM-AK-Birch-Creek-WSR-Corridor-Lands-description.pdf>; or in person by contacting one of the following offices: the Bureau of Land Management National Office, (DOI Library), 1849 C St. NW, Washington, DC 20240, (202) 208–5815; or the Bureau of Land Management Alaska State Office, 222 West 7th Ave. Stop 13, Anchorage, AK 99513, 907–271–3386. To review in person, arrangements should be made in advance by contacting the appropriate office prior to arrival.

**FOR FURTHER INFORMATION CONTACT:** Zach Million, BLM Alaska Program Lead for Recreation, Travel Management and National Conservation Lands, by phone, 907–271–3386; or by email, [zmillion@blm.gov](mailto:zmillion@blm.gov). Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Vivian Browning. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** In accordance with section 3(b) of the Wild and Scenic Rivers Act, the BLM Alaska State Office is transmitting the final boundary of the Birch Creek National Wild and Scenic River to Congress. The Birch Creek Wild and Scenic River boundary description is available for review on the website or in person as indicated in the **ADDRESSES** section.

The Alaska National Interest Lands Conservation Act of December 2, 1980 (Pub. L. 96–487), designated Birch Creek in Alaska as a National Wild and Scenic River to be administered by the Secretary of the Interior. The initial comprehensive river management plan (CRMP) was completed in 1983. A revision to the CRMP was needed to be in conformance with BLM's 2009 National Landscape Conservation System, 2016 Steese Record of Decision and Approved Resource Management Plan, and the 2022 Steese Travel and

Transportation Management Plan Decision Record.

As specified by law, the boundary will not be effective until 90 days after Congress receives the transmittal.

(Authority: 16 U.S.C. 1271; 16 U.S.C. 1274(b))

**Steven M. Cohn,**

*State Director, Alaska.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Ocean Energy Management

[Docket No. BOEM–2024–0036]

#### Notice of Availability of a Joint Record of Decision for the Proposed Atlantic Shores Offshore Wind South Project; Errata

**AGENCY:** Bureau of Ocean Energy Management, Interior; National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Commerce, U.S. Army Corps of Engineers, Department of the Army.

**ACTION:** Record of decision; notice of availability of errata.

**SUMMARY:** On July 8, 2024, the Bureau of Ocean Energy Management (BOEM) published the notice of availability of the joint record of decision (ROD) on the final environmental impact statement (EIS) for the construction and operations plan (COP) submitted by Atlantic Shores Offshore Wind Project 1, LLC and Atlantic Shores Offshore Wind Project 2, LLC (Atlantic Shores) for its proposed Atlantic Shores Offshore Wind South Project (Project) offshore New Jersey in the **Federal Register** (89 FR 55977). The ROD described the Department of the Interior's selected alternative. This errata notice clarifies that the Department of the Interior's selected alternative also includes the removal of a single wind turbine generator (WTG) location, identified as AX01 and located approximately 150 to 200 ft (46 to 61 m) from the observed Fish Haven (Atlantic City Artificial Reef Site). While WTG AX01 was identified as removed in the description of the preferred alternative in the final EIS, BOEM inadvertently omitted a specific statement in the ROD noting that position was removed from the selected layout. In addition, the originally published ROD inadvertently identified WTG AX01 as being subject to micrositing instead of removal. In publishing this errata, BOEM is conforming the specific description of the selected alternative to the final EIS

and making clear that a total of 3 WTG locations will be removed from the Project. Specific locations for WTG removal and micrositing are clarified in a footnote in the ROD errata.

**ADDRESSES:** The ROD, ROD errata, and associated information are available on BOEM's website at <https://www.boem.gov/renewable-energy/state-activities/atlantic-shores-south>.

**FOR FURTHER INFORMATION CONTACT:** For information related to BOEM's action, please contact Kimberly Sullivan, BOEM Office of Renewable Energy Programs, 45600 Woodland Road, VAM-OREP, Sterling, Virginia 20166, (702) 338-4766, or [kimberly.sullivan@boem.gov](mailto:kimberly.sullivan@boem.gov). For information related to National Marine Fisheries Service's (NMFS) action, contact Katherine Renshaw, National Oceanic Atmospheric Administration (NOAA), Office of General Counsel, (302) 515-0324, [katherine.renshaw@noaa.gov](mailto:katherine.renshaw@noaa.gov). For information related to U.S. Army Corps of Engineers' (USACE) action, please contact Stephen Rochette, (215) 656-6515, [PDPA-NAP@usace.army.mil](mailto:PDPA-NAP@usace.army.mil).

**SUPPLEMENTARY INFORMATION:**

**Technical Corrections**

In the Atlantic Shores South ROD dated July 1, 2024, on page 33 is corrected to read:

The selected alternative combines aspects of Alternatives B, C4, D3, and E. The selected alternative will locate all permanent structures into the uniform grid spacing, microsite up to 29 WTGs, 1 OSS, and associated interarray cables outside of the 1,000-ft (305-m) buffer of the ridge and swale features within the NMFS-identified AOCs 1 and 2, restrict the height of WTGs in Project 1 to a maximum hub height of 522 ft (159 m) AMSL and maximum blade tip height of 932 ft (284 m) AMSL, provide a minimum 0.81-nmi (1,500-m) setback between the WTGs in Atlantic Shores South and the WTGs in Ocean Wind 1 (Lease Area OCS-A 0498) by removing two WTGs and micrositing one WTG from Project 1, and remove a single WTG location approximately 150 to 200 ft (46 to 61 m) from the observed Fish Haven (Atlantic City Artificial Reef Site). The total number of permanent structures constructed (WTGs, OSSs, and/or met tower) may not exceed 197.

The added footnote is as follows:

Figure 2.1-10-C4 of the final EIS depicts the unique identifier for each position in the WTG array layout. The selected alternative removes positions AX01, BB05, and BC06 from the layout. Positions AZ08, BA09, BC07, BE10, BE12, BE14, BE15, BE16, BF14, BF15,

and BG13 have been deemed acceptable for micrositing by BOEM and USCG.

**INTERNATIONAL TRADE COMMISSION**

**[Investigation Nos. 731-TA-1422-1423 (Review)]**

**Strontium Chromate From Austria and France; Institution of Five-Year Reviews**

**AGENCY:** United States International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** The Commission hereby gives notice that it has instituted reviews pursuant to the Tariff Act of 1930 ("the Act"), as amended, to determine whether revocation of the antidumping duty orders on strontium chromate from Austria and France would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

**DATES:** Instituted October 1, 2024. To be assured of consideration, the deadline for responses is October 31, 2024. Comments on the adequacy of responses may be filed with the Commission by December 10, 2024.

**FOR FURTHER INFORMATION CONTACT:** Alec Resch (202-708-1448), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this proceeding may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

**SUPPLEMENTARY INFORMATION:**

**Background.**—On November 27, 2019, the Department of Commerce ("Commerce") issued antidumping duty orders on imports of strontium chromate from Austria and France (84 FR 65349).

The Commission is conducting reviews pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission's Rules of Practice and Procedure at 19 CFR part 201, subparts A and B, and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full or expedited reviews. The Commission's determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

**Definitions.**—The following definitions apply to these reviews:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by Commerce.

(2) The *Subject Countries* in these reviews are Austria and France.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determinations, the Commission defined a single *Domestic Like Product* consisting of all strontium chromate, coextensive with Commerce's scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determinations, the Commission defined the *Domestic Industry* as all U.S. producers of strontium chromate.

(5) The *Order Date* is the date that the antidumping duty orders under review became effective. In these reviews, the *Order Date* is November 27, 2019.

(6) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

**Participation in the proceeding and public service list.**—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties
