

ensure that only ETCs directly serving low-income customers receive reimbursement under the Lifeline program; and require ETCs to use a uniform snapshot date to request reimbursement from USAC for the provision of Lifeline support.

On April 27, 2016, the Commission adopted the *Lifeline and Link Up Reform and Modernization et al.*, WC Docket Nos. 11–42, 09–197, 10–90, Third Report and Order, Further Report and Order, and Order on Reconsideration, FCC 16–38 (2016) (2016 Lifeline Order). The 2016 Lifeline Order changes included requiring ETCs to certify compliance with the new minimum service requirements, moving to rolling annual subscriber recertification, streamlining the first-year ETC audit requirements, and eliminating the temporary address requirements.

The Commission's decision to transition to a centralized National Verifier was outlined in detail in the 2016 Lifeline Order. The National Verifier was established to make eligibility determinations and perform a variety of other functions necessary to enroll subscribers into the Lifeline program. The National Verifier verifies Lifeline subscriber eligibility, checks for duplicate Lifeline subscribers, conducts recertification of subscribers, and calculates support payments to ETCs. ETCs maintain ultimate responsibility for the accuracy of information submitted to the National Verifier and complying with the Lifeline program's rules. The National Verifier was launched over a period of several years from late 2017 through December 2020, serving all states, territories, and the District of Columbia.

On October 30, 2019, the Commission adopted the *Bridging the Digital Divide for Low-Income Consumers*, WC Docket Nos. 17–287, 11–42, 09–197, Fifth Report and Order, Memorandum Opinion and Order and Order on Reconsideration, and Further Notice of Proposed Rulemaking, FCC 19–111 (2019) (2019 Lifeline Order). The 2019 Lifeline Order restored the states' lawful role in designating eligible telecommunications carriers and eliminated the Lifeline Broadband Provider designation category and its associated designation procedures. The Order also implemented a number of administrative changes to improve the integrity of the Lifeline eligibility verification, enrollment, and recertification processes.

On October 20, 2023, the Commission adopted the *Connect America Fund et al.*, WC Docket No. 10–90 et al. WT Docket No. 10–208, Notice of Proposed

Rulemaking and Report and Order, FCC 23–87 (Oct. 20, 2023) (*Administrative Order*). In the *Administrative Order*, the Commission modified, in relevant part, section 205 of the Commission's rules, to require an ETC that intends to relinquish its ETC designation to provide: (1) advance notice to the state commission and to the Commission of such intention to relinquish, and (2) notice to the Commission of the state authority's decision to permit or deny such relinquishment, within 10 days of its decision. These filings must be submitted regardless of whether the ETC is currently receiving federal support.

Federal Communications Commission.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1086; FR ID 248413]

Information Collection Being Submitted for Review and Approval to Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Pursuant to the Small Business Paperwork Relief Act of 2002, the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

DATES: Written comments and recommendations for the proposed information collection should be submitted on or before November 1, 2024.

ADDRESSES: Comments should be sent to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Your comment must be submitted into www.reginfo.gov per the above instructions for it to be considered. In addition to submitting in

www.reginfo.gov also send a copy of your comment on the proposed information collection to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Cathy Williams at (202) 418–2918. To view a copy of this information collection request (ICR) submitted to OMB: (1) go to the web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the web page called “Currently Under Review,” (3) click on the downward-pointing arrow in the “Select Agency” box below the “Currently Under Review” heading, (4) select “Federal Communications Commission” from the list of agencies presented in the “Select Agency” box, (5) click the “Submit” button to the right of the “Select Agency” box, (6) when the list of FCC ICRs currently under review appears, look for the Title of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

SUPPLEMENTARY INFORMATION: The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further

reduce the information collection burden for small business concerns with fewer than 25 employees.”

OMB Control Number: 3060–1086.

Title: Section 74.787, Digital Licensing; Section 74.790, Permissible Service of Digital TV Translator and LPTV Stations; Section 74.794, Digital Emissions, Section 74.796, Modification of Digital Transmission Systems and Analog Transmission Systems for Digital Operation.

Form Number: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for profit entities; not for profit institutions; State, local or Tribal government.

Number of Respondents/Responses: 8,445 respondents; 19,586 responses.

Estimated Hours per Response: 0.50 hours–3 hours.

Frequency of Response:

Recordkeeping requirement; One-time reporting requirement; Third party disclosure requirement.

Total Annual Burden: 27,711 hours.

Total Annual Cost: \$61,728,000.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in section 301 of the Communications Act of 1934, as amended.

Needs and Uses: The information collection requirements approved under this collection are as follows:

a. 47 CFR 74.787(a)(3) provides that mutually exclusive applicants applying for construction permits for new digital stations and for major changes to existing stations in the LPTV service will similarly be allowed to submit in writing to the Commission, settlements and engineering solutions to rectify the problem.

b. 47 CFR 74.787(a)(4) provides that mutually exclusive displacement relief applicants filing applications for digital LPTV and TV translator stations may be resolved by submitting settlements and engineering solutions in writing to the Commission.

c. 47 CFR 74.787(a)(5)(v) states that a license for a digital-to-digital replacement television translator will be issued only to a full-power television broadcast station licensee that demonstrates in its application a loss in the station’s pre-auction digital service area as a result of the broadcast television spectrum incentive auction, including the repacking process, conducted under section 6403 of the Middle Class Tax Relief and Job Creation Act of 2012 (Pub. L. 112–96). “Pre-auction digital service area” is defined as the geographic area within the full power station’s noise-limited

contour (as set forth in Public Notice, DA 15–1296, released November 12, 2015). The service area of the digital-to-digital replacement translator shall be limited to only the demonstrated loss area within the full power station’s pre-auction digital service area, provided that an applicant for a digital-to-digital replacement television translator may propose a de minimis expansion of its full power pre-auction digital service area upon demonstrating that the expansion is necessary to replace a loss in its pre-auction digital service area.

d. 47 CFR 74.790(f) permits digital TV translator stations to originate emergency warnings over the air deemed necessary to protect and safeguard life and property, and to originate local public service announcements (PSAs) or messages seeking or acknowledging financial support necessary for its continued operation. These announcements or messages shall not exceed 30 seconds each, and be broadcast no more than once per hour.

e. 47 CFR 74.790(e) requires that a digital TV translator station shall not retransmit the programs and signal of any TV broadcast or DTV broadcast station(s) without prior written consent of such station(s). A digital TV translator operator electing to multiplex signals must negotiate arrangements and obtain written consent of involved DTV station licensee(s).

f. 47 CFR 74.790(g) requires a digital LPTV station who transmits the programming of a TV broadcast or DTV broadcast station received prior written consent of the station whose signal is being transmitted.

g. 47 CFR 74.794 mandates that digital LPTV and TV translator stations operating on TV channels 22–24, 32–36 and 38 with a digital transmitter not specifically FCC-certificated for the channel purchase and utilize a low pass filter or equivalent device rated by its manufacturer to have an attenuation of at least 85 dB in the GPS band. The licensees must retain with their station license a description of the low pass filter or equivalent device with the manufacturer’s rating or a report of measurements by a qualified individual.

h. 47 CFR 74.796(b)(5) requires digital LPTV or TV translator station licensees that modify their existing transmitter by use of a manufacturer-provided modification kit would need to purchase the kit and must notify the Commission upon completion of the transmitter modifications. In addition, a digital LPTV or TV translator station licensees that modify their existing transmitter and do not use a manufacturer-provided modification kit,

but instead perform custom modification (those not related to installation of manufacturer-supplied and FCC-certified equipment) must notify the Commission upon completion of the transmitter modifications and shall certify compliance with all applicable transmission system requirements.

i. 47 CFR 74.796(b)(6) provides that operators who modify their existing transmitter by use of a manufacturer-provided modification kit must maintain with the station’s records for a period of not less than two years, and will make available to the Commission upon request, a description of the nature of the modifications, installation and test instructions, and other material provided by the manufacturer, the results of performance-tests and measurements on the modified transmitter, and copies of related correspondence with the Commission. In addition, digital LPTV and TV translator operators who custom modify their transmitter must maintain with the station’s records for a period of not less than two years, and will make available to the Commission upon request, a description of the modifications performed and performance tests, the results of performance-tests and measurements on the modified transmitter, and copies of related correspondence with the Commission.
