**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

Export licenses approved by BIS are granted to only those persons who certify on the application that they are subject to the jurisdiction of the United States and that they will be strictly accountable for the use of the license in accordance with the EAR. Certain circumstances such as company mergers, company takeovers, etc., necessitate the transfer of an active export license from one party to another. When a licensee transfers an unexpired license to another party, there must be assurances that the other party, the transferee, will also be accountable for the proper use of the license. The required information collected from both parties provides assurances that the balance of the shipments will not be diverted or used for purposes contrary to the authorized use of the approved license.

**II. Method of Collection**

Requests for additional information or specific questions related to collection activities should be directed to Ms. Laurie Mease, International Trade Specialist, International Trade Administration, Office of Textiles and Apparel (OTEXA), by phone (202) 482-2043, or by email to [Laurie.Mease@trade.gov](mailto:Laurie.Mease@trade.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

Title II, Section 203(o) of the United States-Colombia Trade Promotion Agreement Implementation Act (the "Act") [Pub. L. 112-42] implements the commercial availability provision provided for in Article 3.3 of the United States-Colombia Trade Promotion Agreement (the "Agreement"). The Agreement entered into force on May 15, 2012. Subject to the rules of origin in Annex 4.1 of the Agreement, pursuant to the textile provisions of the Agreement, fabric, yarn, and fiber produced in Colombia or the United States and traded between the two countries are entitled to duty-free tariff treatment. Annex 3-B of the Agreement also lists specific fabrics, yarns, and fibers that the two countries agreed are not available in commercial quantities in a timely manner from producers in Colombia or the United States. The fabrics listed are commercially unavailable fabrics, yarns, and fibers, which are also entitled to duty-free treatment despite not being produced in Colombia or the United States.

The list of commercially unavailable fabrics, yarns, and fibers may be changed pursuant to the commercial availability provision in Chapter 3, Article 3.3, Paragraphs 5-7 of the Agreement. Under this provision, interested entities from Colombia or the United States have the right to request that a specific fabric, yarn, or fiber be added to, or removed from, the list of

commercially unavailable fabrics, yarns, and fibers in Annex 3–B of the Agreement.

Chapter 3, Article 3.3, paragraph 7 of the Agreement requires that the President “promptly” publish procedures for parties to exercise the right to make these requests. Section 203(o)(4) of the Act authorizes the President to establish procedures to modify the list of fabrics, yarns, or fibers not available in commercial quantities in a timely manner in either the United States or Colombia as set out in Annex 3–B of the Agreement. The President delegated the responsibility for publishing the procedures and administering commercial availability requests to the Committee for the Implementation of Textile Agreements (“CITA”), which issues procedures and acts on requests through the U.S. Department of Commerce, Office of Textiles and Apparel (“OTEXA”) (See Proclamation No. 8818, 77 FR 29519, May 18, 2012).

The intent of the U.S.–Colombia TPA Commercial Availability Procedures is to foster the use of U.S. and regional products by implementing procedures that allow products to be placed on or removed from a product list, on a timely basis, and in a manner that is consistent with normal business practice. The procedures are intended to facilitate the transmission of requests; allow the market to indicate the availability of the supply of products that are the subject of requests; make available promptly, to interested entities and the public, information regarding the requests for products and offers received for those products; ensure wide participation by interested entities and parties; allow for careful review and consideration of information provided to substantiate requests, responses and rebuttals; and provide timely public dissemination of information used by CITA in making commercial availability determinations.

CITA must collect certain information about fabric, yarn, or fiber technical specifications and the production capabilities of Colombian and U.S. textile producers to determine whether certain fabrics, yarns, or fibers are available in commercial quantities in a timely manner in the United States or Colombia, subject to Section 203(o) of the Act.

## II. Method of Collection

Participants in a commercial availability proceeding must submit public versions of their Requests, Responses or Rebuttals electronically (via email) for posting on OTEXA’s website. Confidential versions of those submissions which contain business

confidential information must be delivered in hard copy to the Office of Textiles and Apparel (OTEXA) at the U.S. Department of Commerce.

*Type of Review:* Regular submission.

*Affected Public:* Business or for-profit organizations.

*Estimated Number of Respondents:* 16.

*Estimated Time per Response:* 8 hours per Request, 2 hours per Response, and 1 hour per Rebuttal.

*Estimated Total Annual Burden Hours:* 89.

*Estimated Total Annual Cost to Public:* \$5,340.

*Respondent’s Obligation:* Voluntary.

*Legal Authority:* Title II, Section 203(o) of the United States-Colombia Trade Promotion Agreement Implementation Act (Pub. L. 112–42).

## IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.
