You may contact the Information Management Division for copies of the proposed collection of information at email address: FEMA-Information-Collections-Management@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: The Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act) (Pub. L. 93–288, as amended) (42 U.S.C. 5195–5195(a)) identifies the purpose of emergency preparedness “for the protection of life and property in the United States from hazards.” It directs that the Federal Government “provide necessary direction, coordination, and guidance” as authorized for a comprehensive emergency preparedness system for all hazards. Emergency preparedness is defined as all “activities and measures designed or undertaken to prepare or minimize the effects of a hazard upon the civilian population . . .” The “conduct of research” is among the measures to be undertaken in preparation for hazards.

The Department of Homeland Security (DHS) Strategic Plan 2020–2024 includes Goal 5 to “strengthen preparedness and resiliency.” The first objective (5.1) of this goal is to “build a national culture of preparedness” with a sub-objective to “improve awareness

initiatives to encourage public action to increase preparedness.” Similarly, in FEMA’s 2022–2026 Strategic Plan, Goal 3 is to “promote and sustain a ready FEMA and prepared nation.”

Presidential Policy Directive-8 (PPD-8) directs the Secretary of Homeland Security to “coordinate a comprehensive campaign to build and sustain national preparedness, including public outreach and community-based and private sector programs to enhance national resilience, the provision of Federal financial assistance, preparedness efforts by the Federal Government, and national research and development efforts.”

The Post Katrina Emergency Management Reform Act (PKEMRA) (Pub. L. 109–295) (6 U.S.C. 749(a)) requires the FEMA Administrator, in coordination with the National Council on Disability and the National Advisory Council, to establish a comprehensive system to assess, on an ongoing basis, the Nation’s prevention capabilities and overall preparedness, including operational readiness.

In response to the charge to FEMA, and to the DHS and FEMA strategic priorities, FEMA manages programs to improve the public’s knowledge and actions for preparedness and resilience. Information from this collection will be used to track changes in knowledge, attitudes, and behaviors related to preparedness in the general public. This information collection will be in the form of a public opinion survey administered to a sample of American adults across the nation. The nature of the information collected will focus on people’s attitudes, behaviors, and motivations related to disaster preparedness and disaster risk.
