[Project No. 2307–086]

Alaska Electric Light & Power Company; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed Alaska Electric Light and Power Company's application for a non-capacity amendment of license of the Annex Creek and Salmon Creek Hydroelectric Project No. 2307, and have prepared an Environmental Assessment (EA) for the proposed amendment. The licensee proposes to replace the upper Salmon Creek penstock, which runs from the valvehouse to the abandoned upper powerhouse. The licensee would also replace penstock bridges over Salmon Creek that have not been recently rebuilt with new bridges to support the new penstock. The project is located on Annex and Salmon Creeks in the City and Borough of Juneau, Alaska. The project occupies Federal lands within the Tongass National Forest administered by the U.S. Forest Service. The EA contains Commission staff's analysis of the potential environmental effects of the proposed amendment to the license, alternatives to the proposed action, and concludes that the proposed amendment, with appropriate environmental protective measures, would not constitute a major Federal action that would significantly affect the quality of the human environment.

The EA may be viewed on the Commission's website at <http://www.ferc.gov> using the “eLibrary” link. Enter the docket number (P–2307) in the docket number field to access the document. Electronic Tariff Filings; Notice of Deployment of eTariff Test Sandbox

Take notice that on September 30, 2024, the test sandbox was deployed to permit the testing of eTariff filings using both the new compliance codes as described in the September 20, 2024, Notice¹ as well as the Version 2 XML schema as described in the June 11,

¹ *Electronic Tariff Filings*, Docket No. RM01-5-000 (Sept. 20, 2024), <https://elibrary.ferc.gov/eLibrary/filedownload?fileid=6FFD7C34-1D8A-CD28-8BD5-92111D400000>.

2024 Notice.² The test sandbox may be accessed by going to the current eTariff Sandbox page (<https://etariff.ferc.gov/TariffSandbox.aspx>) and clicking the Open Test Sandbox link at the top of the page. To access the test site directly go to <https://etariff.ferc.gov/TariffSandbox2.aspx>. eTariff files that include these features can only be tested in the Test Sandbox and not in the sandbox for the currently deployed version of eTariff.

As described in the September 20 and June 11 Notices, the test sandbox will allow eTariff filers to test filings using the new compliance categories as well as the inclusion of an applicant name and tariff records submitted in Microsoft Word and Excel formats.

Additionally, there have been three changes to the filing_type table.

1. Code 230—Complaint (ISOs/RTOs) has been changed to compliance_New_type.

2. The descriptions for Codes 40 and 45 have been changed to:

Code 40: Application for Confirmation and Approval (Other than BPA)—subdocket.

Code 45: Application for Confirmation and Approval (Other than BPA)—new docket.

Revised filing_type tables will be posted at the same eLibrary Accession Number as this Notice. Two marked versions are posted. The first showing all the changes from the existing filing-type table and the second indicating the three changes described above. After parties have an opportunity to test and no further change are necessary, the final tables will be posted with a targeted date of November 1, 2024.

Questions on these changes should be directed to: Michael Goldenberg at Michael.Goldenberg@ferc.gov or James Sarikas at James.Sarikas@ferc.gov.
