DEPARTMENT OF COMMERCE

International Trade Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Domestic and International Client Export Services and Customized Forms Revision

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on July 29, 2024, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: International Trade Administration, Commerce.

Title: Domestic and International Clients Export Services & Customized Forms.

OMB Control Number: 0625-0143.

Form Number(s): None.

Type of Request: Renewal submission with revision to a currently approved collection.

Number of Respondents: 200,000.

Average Hours per Response: 10 minutes.

Burden Hours: 33,333 (annual).

Needs and Uses: The International Trade Administration's (ITA) Global Markets' U.S. Commercial Service (CS) is mandated by Congress to broaden and deepen the U.S. exporter base. ITA accomplishes this by providing counseling, programs and services to help U.S. organizations export and conduct business in overseas markets. This information collection package enables the CS to provide appropriate export services to U.S. exporters and international buyers.

ITA offers a variety of services to enable clients to begin exporting or to expand existing exporting efforts. Clients may learn about our services from business related entities such as the National Association of Manufacturers, Federal Express, State Economic Development offices, the internet or word of mouth. The CS provides a standard set of services to assist clients with identifying potential overseas partners, establishing meeting programs with appropriate overseas business contacts and providing due diligence reports on potential overseas business partners. The CS also provides other export-related services considered to be of a "customized nature" because they do not fit into the standard set of CS export services but are driven by unique business needs of individual clients.

Before the CS can provide export-related services to clients, such as assistance with identifying potential partners or providing due diligence, specific information is required to determine the client's business objectives and needs. For example, before a service can be provided to identify potential business partners, it is necessary to know whether the client would like a potential partner to have specific technical qualifications, coverage in a specific market, English or foreign language ability or warehousing requirements. This information collection is designed to elicit such data so that appropriate services can be proposed and conducted to most effectively meet the client's exporting goals. Without these forms the CS is unable to provide services when requested by clients.

The forms ask U.S. exporters standard questions about their company details, demographic information, export experience, information about the products or services they wish to export and exporting goals. A few questions are tailored to a specific program type and will vary slightly with each program. CS staff use this information to gain an understanding of client's needs and objectives so that they can provide appropriate and effective export

assistance tailored to an exporter's particular requirements.

Affected Public: Business or other for-profit organizations; Not-for-profit institutions; State, Local, or Tribal government; and Federal government.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

Legal Authority: Public Law 15 U.S.C. *et seq.* and 15 U.S.C. 171 *et seq.*

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0625–0143.

Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Continuation of Antidumping Duty Order and Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the U.S. Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC) that the revocation of the antidumping duty (AD) order and countervailing duty (CVD) order on certain crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells), from the People's Republic of China (China) would likely lead to the continuation or recurrence of dumping and net countervailable subsidies, and material injury to an industry in the United States, Commerce is publishing a notice of continuation of these AD and CVD orders.

DATES: Applicable September 20, 2024.

FOR FURTHER INFORMATION CONTACT: Jose Rivera (CVD) and Howard Smith (AD), AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–0842, or (202) 482–5193, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 7, 2012, Commerce published in the **Federal Register** the *AD Order* and *CVD Order* on solar cells from China.¹ On February 1, 2024, Commerce initiated the second sunset review of the *Orders*,² pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its review, Commerce determined that revocation of the *Orders* would likely lead to the continuation or recurrence of dumping and net countervailable subsidies, and therefore, notified the ITC of the magnitude of the margins of dumping and subsidy rates likely to prevail should the *Orders* be revoked.³

On September 20, 2024, the ITC published its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the *Orders* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁴

Scope of the Orders

The merchandise covered by the *Orders* are crystalline silicon photovoltaic cells, and modules, laminates, and panels, consisting of crystalline silicon photovoltaic cells, whether or not partially or fully
