SUPPLEMENTARY INFORMATION:

I. Background

The DOI Interior Business Center (IBC) maintains the INTERIOR/DOI–91, Oracle Federal Financials (OFF), system of records. The IBC is a service provider that performs services for Federal government agencies. The IBC's service offerings include providing and maintaining various types of business management systems for its clients, including human resources and financial management applications. The OFF system provides IBC clients with a web-based application that contains customizable financial management modules that combine to provide a comprehensive financial software package to support budgeting, purchasing, Federal procurement, accounts payable, fixed assets, general ledger, inventory, accounts receivable, reimbursement, reporting, and collection functions.

IBC hosts the OFF system and is responsible for system administration functions and other management functions in accordance with interagency agreements with internal and external Federal customer agencies. Each external client agency retains control over its data in the system and is responsible for maintaining client agency records in the OFF system and for meeting the requirements of the Privacy Act and other laws, regulations, and policies. While DOI records generated and maintained in OFF are covered under this system of records notice (SORN), each client agency that maintains records within the system has published system notices that cover

their financial management activities. IBC does not collect personally identifiable information directly from individuals on behalf of the customer agency for this system. Therefore, individuals seeking access to or amendment of their records under the control of an external client agency should follow the access procedures outlined in the applicable client agency SORN or send a written inquiry to that Federal agency Chief Privacy Officer.

Additionally, some records maintained within the OFF system may also be covered by existing government-wide SORNs published by the General Services Administration, including GSA/GOVT–3, Travel Charge Card Program, 78 FR 20108 (April 3, 2013); GSA/GOVT–4, Contracted Travel Services Program 74 FR 26700 (June 3, 2009), modification published at 74 FR 28048 (June 12, 2009); and GSA/GOVT–6, GSA SmartPay Purchase Charge Card Program, 73 FR 22376 (April 25, 2008). These records may be subject to handling and disclosure requirements pursuant to the routine uses in the government-wide SORNs, as applicable. Client agencies are responsible for ensuring the handling, use, and sharing of their records in OFF are in compliance with the Privacy Act of 1974, including the provisions regarding notice, access, collection, use, retention, and disclosure of records.

In this notice, DOI is proposing to update the system manager and system location sections; expand on the record source categories section; update authorities for maintenance of the system; update the storage, retrieval, records retention schedule, and safeguards; update the notification, records access and contesting procedures; and provide general updates in accordance with the Privacy Act of 1974 and Office of Management and Budget (OMB) Circular A–108, *Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act*.

DOI is also changing the routine uses from a numeric to alphabetic list and is proposing to modify existing routine uses to provide clarity and transparency and reflect updates consistent with standard DOI routine uses. The notice of disclosure to consumer reporting agencies section was moved to the end of this section. Routine use A has been modified to further clarify disclosures to the Department of Justice or other Federal agencies when necessary in relation to litigation or judicial proceedings. Routine use B has been modified to clarify disclosures to a congressional office to respond to or resolve an individual's request made to

that office. Routine use H has been modified to expand the sharing of information with territorial organizations in response to court orders or for discovery purposes related to litigation. Routine use I has been modified to include the sharing of information with grantees and shared service providers that perform services requiring access to these records on DOI's behalf to carry out the purposes of the system. Routine use J was slightly modified to allow DOI to share information with appropriate Federal agencies or entities when reasonably necessary to prevent, minimize, or remedy the risk of harm to individuals or the Federal Government resulting from a breach in accordance with OMB Memorandum M–17–12, *Preparing for and Responding to a Breach of Personally Identifiable Information*. Routine use R has been modified to reflect the agency name change for the Government Accountability Office.

DOI is proposing a new routine use to facilitate the sharing of information with another Federal agency to carry out a statutory responsibility of the DOI. Proposed routine use S allows DOI to share information with the Department of the Treasury in support of the Do Not Pay Program in accordance with the Payment Integrity Information Act of 2019 to prevent and detect improper payments.

Pursuant to the Privacy Act, 5 U.S.C. 552a(b)(12), DOI may disclose information from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)) to aid in the collection of outstanding debts owed to the Federal Government.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals' records. The Privacy Act applies to records about individuals that are maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of

DOI by complying with DOI Privacy Act regulations at 43 CFR part 2, subpart K, and following the procedures outlined in the Records Access, Contesting Record, and Notification Procedures sections of this notice.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the existence and character of each system of records that the agency maintains and the routine uses of each system. The INTERIOR/DOI-91, Oracle Federal Financials (OFF), SORN is published in its entirety below. In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Participation

You should be aware your entire comment including your personally identifiable information, such as your address, phone number, email address, or any other personal information in your comment, may be made publicly available at any time. While you may request to withhold your personally identifiable information from public review, we cannot guarantee we will be able to do so.
