

part 1, 43 CFR part 45, and 50 CFR part 221, to implement section 241 of the Energy Policy Act of 2005 (EP Act), Public Law 109–58, enacted on August 8, 2005. Section 241 of the EP Act added a new section 33 to the Federal Power Act (FPA), 16 U.S.C. 823d, that allowed the license applicant or any other party to the license proceeding to propose an alternative to a condition or prescription that one or more of the Departments develop for inclusion in a hydropower license issued by the Federal Energy Regulatory Commission (FERC) under the FPA. This provision required that the Department of Agriculture, the Department of the Interior, and the Department of Commerce collect the information covered by 1094–0001.

Under FPA section 33, the Secretary of the Department involved must accept the proposed alternative if the Secretary determines, based on substantial evidence provided by a party to the license proceeding or otherwise available to the Secretary, (a) that the alternative condition provides for the adequate protection and utilization of the reservation, or that the alternative prescription will be no less protective than the fishway initially proposed by the Secretary, and (b) that the alternative will either cost significantly less to implement or result in improved operation of the project works for electricity production.

In order to make this determination, the regulations require that all of the following information be collected: (1) a description of the alternative, in an equivalent level of detail to the Department's preliminary condition or prescription; (2) an explanation of how the alternative: (i) if a condition, will provide for the adequate protection and utilization of the reservation; or (ii) if a prescription, will be no less protective than the fishway prescribed by the bureau; (3) an explanation of how the alternative, as compared to the preliminary condition or prescription, will: (i) cost significantly less to implement; or (ii) result in improved operation of the project works for electricity production; (4) an explanation of how the alternative or revised alternative will affect: (i) energy supply, distribution, cost, and use; (ii) flood control; (iii) navigation; (iv) water supply; (v) air quality; and (vi) other aspects of environmental quality; and (5) specific citations to any scientific studies, literature, and other documented information relied on to support the proposal.

This notice of proposed renewal of an existing information collection is being published by the Office of Environmental Policy and Compliance,

Department of the Interior, on behalf of all three Departments, and the data provided below covers anticipated responses (alternative conditions/prescriptions and associated information) for all three Departments.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on August 13, 2024, based on a complaint filed by MimirIP LLC of Dallas, Texas ("Mimir"). 89 FR 65931–32 (Aug. 13, 2024). The complaint, as supplemented, alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain NAND memory devices and electronic devices containing same by reason of infringement of certain claims of U.S. Patent Nos. 8,637,919; 9,245,962; and 10,896,918. The notice of investigation named as respondents: Micron Technology, Inc. ("Micron") of Boise, Idaho; Acer Inc. of New Taipei City, Taiwan; Acer America Corp. of San Jose, California; HP, Inc. of Palo Alto, California; Kingston Technology Company, Inc. of Fountain Valley, California; Lenovo Group Limited of Hong Kong, China; and Lenovo (United States) Inc. of Morrisville, North Carolina (collectively, "Respondents"). On August 28, 2024, Mimir and Respondents filed a joint motion to terminate the investigation based on a settlement between Mimir and Micron that resolves all issues as to all Respondents in this investigation. On September 5, 2024, OUII filed a response in support of the motion. On September 6, 2024, the ALJ issued Order No. 6 requesting additional clarification regarding the motion. On September 10, 2024, Mimir and Micron jointly filed a supplement to the motion stating that Mimir requests termination of the investigation based on withdrawal of

the complaint with respect to the respondents other than Micron.

On September 12, 2024, the ALJ issued the subject ID granting the joint motion to terminate the investigation. The ALJ found that the motion complied with the requirements of Commission Rule 210.21(b)(1) (19 CFR 210.21(b)(1)) with respect to the termination of Micron based on a settlement agreement, and the motion complied with the requirements of Commission Rule 210.21(a)(1) (19 CFR 210.21(a)(1)) with respect to the termination of the remaining respondents by withdrawal of the complaint. No petitions for review of the ID were filed.

The Commission has determined not to review the subject ID. The investigation is hereby terminated in its entirety.

The Commission vote for this determination took place on October 4, 2024.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

(v) explain how the recommended orders would impact consumers in the United States.
