Abstract: To help expand historically underserved and overburdened communities' access to critical resources, the U.S. Environmental Protection Agency (EPA) developed the Promoting Readiness and Enhancing Proficiency to Advance Reporting and Data (PREPARED) Program. The evidence-building technical assistance (TA) providers (hereafter referenced as Providers) will operate in cooperative agreements with EPA to remove barriers and improve access for communities who have applied for or received financial assistance awards to tackle their environmental justice concerns. The Providers will deliver TA and training that is intended to enhance capacity in: grant application and administration, collecting grant related data; meeting federal post-award reporting requirements; project planning/design; and generating information necessary for outcomes assessment, evaluation, and identification of opportunities for improvement. With this Information Collection Request (ICR), EPA seeks authorization to collect post-award information from each Provider to track their progress. Collection of this information enables EPA to assess and manage the PREPARED program, which ensures responsible stewardship of public funds; rigorous evidence-based learning and improvement; and transparent accountability to the American public. This ICR also requests authorization for the Providers to collect input and insights from communities who seek to obtain technical assistance services, as well as stakeholders who have valuable experience and expertise in community engagement and empowerment. These information collections will enable the Providers to document local priorities, needs, and norms to ensure that they develop useful and relevant technical assistance and training services. Furthermore, feedback about these services will enable the Providers to conduct self-assessments to identify best practices and areas for improvement.

Form Numbers: None.

Respondents/affected entities: Recipients of financial assistance

awards from the Promoting Readiness and Enhancing Proficiency to Advance Reporting and Data (PREPARED) Program, community members, stakeholders.

Respondent's obligation to respond: Mandatory for grant recipients as per reporting requirements included in EPA regulations 2 CFR parts 200 and 1500, and voluntary for public outreach information collections via surveys and focus groups.

Estimated number of respondents: 12 grant recipients and 4680 members of the public (over 3 years).

Frequency of response: Grant recipients will submit quarterly progress reports. Public outreach information collections (via surveys and focus groups) will occur throughout the life of the PREPARED project, with no more than one response per instrument per respondent.

Total estimated burden: 3,234 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$116,142 (per year), there are no annualized capital or operation & maintenance costs.

Changes in the Estimates: This is a new collection.

Director, Information Engagement Division.
