

FHWA increased its estimated burden to the public between the 60-day **Federal Register** Notice announcing its intent to seek approval from OMB to collect this information, and this application. FHWA doubled its estimated burden on the public from 90 minutes per application to 180 minutes (3 hours) per application. The reason for this adjustment is that during this time, FHWA developed the application form and found that to gather all information needed to evaluate applications, a longer set of application questions was required, and that more time would likely be needed to discuss applications in follow-up interviews. This increased burden estimate is reflected in the Supporting Statement and this notice.

Respondents: FHWA estimates the maximum response to be up to 50 percent of the total universe of potential pilot program participants, which includes 52 State DOTs equivalents, and approximately 420 MPOs and 10 RTPOs. Thus, the estimated maximum response expected per application round is up to 241 individuals.

Frequency: Annually.

Estimated Average Burden per Response: Approximately 180 minutes per respondent.

Estimated Total Annual Burden Hours: Total estimated average annual burden is 723 hours, and 2,169 hours over 3 years.

Public Comments Invited: You are asked to comment on any aspect of this

information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended; and 49 CFR 1.48.

Issued on: October 8, 2024.

Jazmyne Lewis,

Information Collection Officer.
