

carbon and 10.5 percent or more of chromium, with or without other elements.

Excluded from the scope of the antidumping order on steel threaded rod from the People's Republic of China is any merchandise covered by the existing antidumping order on certain steel threaded rod from the People's Republic of China. *See Certain Steel Threaded Rod from the People's Republic of China: Notice of Antidumping Duty Order*, 74 FR 17154 (April 14, 2009).

Specifically excluded from the scope of this order is threaded rod that is imported as part of a package of hardware in conjunction with a ready-to-assemble piece of furniture.

Alloy and certain carbon steel threaded rod are currently classifiable under subheadings 7318.15.5051, 7318.15.5056, and 7318.15.5090 of the Harmonized Tariff Schedule of the United States (HTSUS). Subject merchandise may also enter under subheading 7318.15.2095 and 7318.19.0000 of the HTSUS. The HTSUS subheadings are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

Appendix II

The scope of the countervailing duty order covers carbon and alloy steel threaded rod. Steel threaded rod is certain threaded rod, bar, or studs, of carbon or alloy steel, having a solid, circular cross section of any diameter, in any straight length. Steel threaded rod is normally drawn, cold-rolled, threaded, and straightened, or it may be hot-rolled. In addition, the steel threaded rod, bar, or studs subject to this order are non-headed and threaded along greater than 25 percent of their total actual length. A variety of finishes or coatings, such as plain oil finish as a temporary rust protectant, zinc coating (*i.e.*, galvanized, whether by electroplating or hot-dipping), paint, and other similar finishes and coatings, may be applied to the merchandise.

Steel threaded rod is normally produced to American Society for Testing and Materials (ASTM) specifications ASTM A36, ASTM A193 B7/B7m, ASTM A193 B16, ASTM A307, ASTM A320 L7/L7M, ASTM A320 L43, ASTM A354 BC and BD, ASTM A449, ASTM F1554–36, ASTM F1554–55, ASTM F1554 Grade 105, American Society of Mechanical Engineers (ASME) specification ASME B18.31.3, and American Petroleum Institute (API) specification API 20E. All steel threaded rod meeting the physical description set forth above is covered by the scope of this order, whether or not produced according to a particular standard.

Subject merchandise includes material matching the above description that has been finished, assembled, or packaged in a third country, including by cutting, chamfering, coating, or painting the threaded rod, by attaching the threaded rod to, or packaging it with, another product, or any other finishing, assembly, or packaging operation that would not otherwise remove the merchandise from the scope of this order if performed in the country of manufacture of the threaded rod.

Carbon and alloy steel threaded rod are also included in the scope of this order whether or not imported attached to, or in conjunction with, other parts and accessories

such as nuts and washers. If carbon and alloy steel threaded rod are imported attached to, or in conjunction with, such non-subject merchandise, only the threaded rod is included in the scope.

Excluded from the scope of this order are: (1) Threaded rod, bar, or studs which are threaded only on one or both ends and the threading covers 25 percent or less of the total actual length; and (2) stainless steel threaded rod, defined as steel threaded rod containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements.

Excluded from the scope of the antidumping order on steel threaded rod from the People's Republic of China is any merchandise covered by the existing antidumping order on certain steel threaded rod from the People's Republic of China. *See Certain Steel Threaded Rod from the People's Republic of China: Notice of Antidumping Duty Order*, 74 FR 17154 (April 14, 2009).

Specifically excluded from the scope of this order is threaded rod that is imported as part of a package of hardware in conjunction with a ready-to-assemble piece of furniture.

Steel threaded rod is currently classifiable under subheadings 7318.15.5051, 7318.15.5056, and 7318.15.5090 of the Harmonized Tariff Schedule of the United States (HTSUS). Subject merchandise may also enter under subheading 7318.15.2095 and 7318.19.0000 of the HTSUS. The HTSUS subheadings are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

Certain Corrosion Inhibitors From the People's Republic of China: Final Results of Antidumping Duty Administrative Review, 2022–2023

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that companies in the People's Republic of China (China) made sales of subject merchandise at less than normal value (NV) during the period of review (POR) March 1, 2022, through February 28, 2023.

DATES: Applicable October 15, 2024.

FOR FURTHER INFORMATION CONTACT: Hermes Pinilla or Dusten Hom, AD/CVD Operations, Office I, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–3477 and (202) 482–5075, respectively.

SUPPLEMENTARY INFORMATION:

Background

On April 3, 2024, Commerce published the *Preliminary Results* of this review in the **Federal Register** and invited interested parties to comment on those results.¹ For a complete description of the events that occurred since the *Preliminary Results*, see the Issues and Decision Memorandum.² Commerce conducted this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of the Order³

The products covered by the *Order* are certain corrosion inhibitors from China. A complete description of the scope of the *Order* is contained in the Issues and Decision Memorandum.

China-Wide Entity

As stated in the *Preliminary Results*, because no party requested a review of the China-wide entity in this review, the China-wide entity is not under review and the China-wide entity's rate, *i.e.*, 241.02 percent, is not subject to change.⁴

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties in this administrative review are addressed in the Issues and Decision Memorandum and are listed in the appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Changes Since the Preliminary Results

Based on the comments received, we made no changes to the *Preliminary*

Rate for Non-Examined Separate Rate Respondents

The statute and our regulations do not address the establishment of a rate to be assigned to respondents not selected for individual examination when we limit our examination of companies subject to the administrative review pursuant to section 777A(c)(2)(B) of the Act. Generally, we look to section 735(c)(5) of the Act, which provides instructions

for calculating the all-others rate in an investigation, for guidance when calculating the rate for respondents not individually examined in an administrative review. Under section 735(c)(5)(A) of the Act, the all-others rate is normally “an amount equal to the weighted average of the estimated weighted average dumping margins established for exporters and producers individually investigated, excluding any zero and *de minimis* margins, and any margins determined entirely {on the basis of facts available}.” Accordingly, in the final results of review, we are

assigning to the non-selected separate rate respondents an estimated weighted-average dumping margin based on the average of Anhui Trust Chem Co., Ltd.’s, and its affiliates (collectively Anhui), and Nantong Botao Chemical Co., Ltd.’s (Botao) rates weighted by their publicly available ranged U.S. sales values.

Final Results of the Review

Commerce determines that the following estimated weighted-average dumping margins exist for the period March 1, 2022, through February 28, 2023:

Exporter	Weighted-average dumping margin (percent)
Anhui Trust Chem Co., Ltd.; Jiangsu Trust Chem Co., Ltd.; Nanjing Trust Chem Co., Ltd	11.58
Nantong Botao Chemical Co., Ltd	8.27
Review-Specific Average Rate Applicable to the Following Companies	
Gold Chemical Limited	10.49
Jiangyin Delian Chemical Co., Ltd	10.49
Kanghua Chemical Co., Ltd	10.49

Disclosure

Because we have not modified our analysis to the *Preliminary Results*, we are adopting the *Preliminary Results* as the final results of this review. Consequently, there are no new calculations to disclose in accordance with 19 CFR 351.224(b) for the final results of review.

Assessment Rates

Pursuant to section 751(a)(2)(A) of the Act, and 19 CFR 351.212(b)(1), Commerce has determined, and U.S. Customs and Border Protections (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. Pursuant to 19 CFR 351.212(b)(1), for Anhui and Botao, we calculated importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of dumping calculated for each importer’s examined sales and the total entered value of the sales in accordance with 19 CFR 351.212(b)(1). Where an importer-specific assessment rate is *de minimis* (*i.e.*, less than 0.5 percent), the entries by that importer will be liquidated without regard to antidumping duties.

For all non-selected separate rate applicants subject to this review, we will instruct CBP to liquidate all entries of subject merchandise that entered the United States during the POR at the average of the rates calculated for Anhui

and Botao as listed above. For entries of subject merchandise during the POR produced by Anhui and Botao for which they did not know their merchandise was destined for the United States, we intend to instruct CBP to liquidate such entries at the China-wide rate if there is no rate for the intermediate company or companies involved in the transaction.

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for the companies subject to this review will be the rate established in these final results of the review; (2) for previously investigated or reviewed Chinese and non-Chinese exporters not listed above that have separate rates, the cash deposit rate will

continue to be the exporter-specific rate published for the most recently completed segment of this proceeding in which they were reviewed; (3) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be equal to the weighted-average dumping margin for the China-wide entity (*i.e.*, 241.02 percent); and (4) for all non-Chinese exporters of subject merchandise which have not received their own separate rate, the cash deposit rate will be the rate applicable to the Chinese exporter(s) that supplied that non-Chinese exporter.⁶ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping and/or countervailing duties has occurred and the subsequent assessment of double antidumping duties, and/or an increase in the amount of antidumping duties by the amount of countervailing duties.

⁵ See *Preliminary Results*.

⁶ See *Order*, 86 FR at 14871.

Administrative Protective Order (APO)

This notice also serves as a final reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

This determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.221(b)(5).

Dated: October 4, 2024.

Ryan Majerus,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From Malaysia: Preliminary Affirmative Countervailing Duty Determination and Alignment of Final Determination With Final Antidumping Duty Determination

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily determines that countervailable subsidies are being provided to producers and exporters of crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells), from Malaysia. The period of investigation is January 1, 2023, through December 31, 2023. Interested parties are invited to comment on this preliminary determination.

DATES: Applicable October 15, 2024.

FOR FURTHER INFORMATION CONTACT: Preston Cox or Scarlet Jaldin, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-5041 or (202) 482-4275, respectively.

SUPPLEMENTARY INFORMATION:**Background**

This preliminary determination is made in accordance with section 703(b) of the Tariff Act of 1930, as amended (the Act). Commerce published the notice of initiation of this investigation on May 20, 2024.¹ On July 3, 2024, Commerce postponed the preliminary determination of this investigation until September 23, 2024.² On July 22, 2024, Commerce tolled certain deadlines in this administrative proceeding by seven days.³

Scope of the Investigation

The product covered by this investigation is solar cells from Malaysia. For a complete description of the scope of this investigation, see Appendix I.

Scope Comments

In accordance with the *Preamble* to Commerce's regulations,⁵ the *Initiation Notice* set aside a period of time for parties to raise issues regarding product coverage, (*i.e.*, scope).⁶ We received several comments concerning the scope of this investigation, as well as in the companion less-than-fair-value (LTFV) and countervailing duty (CVD) investigations of solar cells, as it appeared in the *Initiation Notice*. We are currently evaluating the scope comments filed by interested parties. We intend to issue our preliminary decision regarding the scope of the LTFV and CVD investigations of the companion LTFV investigations, the deadline for which is November 27, 2024.⁷ We will incorporate the scope decisions from the LTFV investigations into the scope of the final CVD determination for this investigation after
