

Due to the volume of individuals traveling through Mexico to present at a POE at a designated date and time, CBP has deployed a validation mechanism to assist the Mexican government officials when they encounter an individual or group who claim to have a CBPOne™ appointment. The tool requires the Mexican government official to enter an individual's CBPOne™ confirmation number and date of birth. Once submitted, the tool returns confirmation of any valid CBPOne™ appointment with the appointment date, time, and location, as well as the total number of people in the group.

Overview of This Information Collection

Title: Forced Labor Allegation Portal/ Forced Labor Portal.

OMB Number: 1651–0NEW.

Form Number: N/A.

Current Actions: New collection of information.

Type of Review: New collection of information.

Affected Public: Businesses, Individuals.

Abstract: U.S. Customs and Borders Protection (CBP) has created a new Forced Labor Allegation Portal and Forced Labor Portal. Currently, information regarding potential forced labor and trade violations are electronically submitted via the e-Allegations website at: <https://www.cbp.gov/trade/e-allegations/>.

Submissions from petitioners for revocation and modification requests are submitted by email to ForcedLabor@cbp.dhs.gov (and through the BOX program and the Case Management System—CMS). Exception review information is sent to UFLPAInquiry@cbp.dhs.gov mailbox via email with multiple zip files.

Applicability review information is sent to various ports of entry or any of

the ten Centers of Excellence and Expertise via email with multiple zip files or shared secured folders.

U.S. Customs and Border Protection (CBP) enforces section 307 of the Tariff Act of 1930 (19 U.S.C. 1307), which states that “all goods, wares, articles, and merchandise mined, produced, or manufactured wholly or in part in any foreign country by convict labor or/and forced labor or/and indentured labor under penal sanctions shall not be entitled to entry at any of the ports of the United States, and the importation thereof is hereby prohibited . . .”

In addition, the Trade Facilitation and Trade Enforcement Act of 2015 (TFTEA) (Pub. L. 114–125), signed into law on February 24, 2016, removed the “consumptive demand clause” for the enforcement of 19 U.S.C. 1307, and mandated CBP to create a division to oversee forced labor enforcement and create a process for the investigation of allegations.

CBP also enforces the Countering America’s Adversaries Through Sanctions Act (CAATSA) (Pub. L. 115–44 (August 2, 2017), (22 U.S.C. 9241a)) where goods produced by North Korean nationals or citizens are presumed to be produced under forced labor and are prohibited from entering the U.S. commerce under 19 U.S.C. 1307.

Recently, the Uyghur Forced Labor Prevention Act (UFLPA) (Pub. L. 117–78 (December 23, 2021)) established that any goods produced wholly or in part in the Xinjiang Uyghur Autonomous Region (XUAR) of China, or by entities on the UFLPA Entity List are presumed to be made with forced labor and thus prohibited from importation into the U.S. under 19 U.S.C. 1307. This law allows for the collection of supply chain documentation to substantiate that forced labor was not used in the production of imported goods under an exception review or UFLPA does not apply to the detained shipment under an applicability review.

Sections 12.42 through 12.45 of title 19 of the Code of Federal Regulations (CFR) contain methods for CBP to collect information on forced labor, conduct investigations, and initiate withhold release orders (WRO) or findings to enforce 19 U.S.C. 1307 as well as allow for the collection of information from importers on detained shipments for admissibility review under a WRO.

Individuals, companies (domestic and international), civil society organizations, and nongovernmental organizations may submit allegations of forced labor, request for admissibility, applicability, and exception reviews

with CBP under these laws and regulations.

The new Forced Labor Allegation Portal and the Forced Labor Portal will consolidate the various above-mentioned methods of submission into one centralized location, increasing efficiency and reducing the burden of collection to both CBP and the public.
