A. Program Description

1. *Purpose of the Program.* The Agency provides grants, guaranteed loans, and combined grant and guaranteed loan combinations through the REAP program to help agricultural producers and rural small businesses, including those Tribally owned or Tribal member owned, reduce energy costs and consumption and helps meet the Nation's critical energy needs. The REAP has two types of funding assistance: RES/EEI assistance and EA and REDA grants.

2. *Statutory and Regulatory Authority.* REAP is authorized by section 9007 of the Farm Security and Rural Investment Act of 2002, as amended, codified at 7 U.S.C. 8107 and is implemented by 7 CFR 4280 subpart B (*ecfr.gov/current/title-7/subtitle-B/chapter-XLII/part-4280#part-4280*) and 7 CFR part 5001 (*ecfr.gov/current/title7/subtitle-B/chapter-L/part-5001*). The Inflation Reduction Act (IRA) of 2022 provides additional authorities for REAP (Public Law 117-169, section 22002).

3. *Definitions.* The definitions applicable to this notice are published at 7 CFR 4280.103 and 7 CFR 5001.3. For the purpose of this notice only, underutilized renewable energy technologies (underutilized technologies) are defined as those technologies which do not produce greenhouse gases at the project level and make up less than 20 percent of the total grant dollars obligated at the end of the fiscal year, two (2) years previous to the current year. For example, FY 2023 award data will be utilized to determine which technologies are underutilized technologies for the FY 2025 competition.

4. *Application of Awards.* The Agency will review, evaluate and score applications based on the provisions found in 7 CFR 4280, subpart B, 7 CFR 5001, and as indicated in this notice. The Agency advises all interested parties that the applicant bears the full burden in preparing and submitting an application in response to this notice regardless of whether or not funding is appropriated for the REAP program or whether or not the applicant is ultimately successful.

Approximate Number of Awards: The collective estimated number of awards under this notice is 6,000 based on the three FYs included in the notice and will depend on the actual amount of funds made available and on the number of eligible applicants participating in this program.

C. Eligibility Information

1. *Eligibility Requirements.* Eligibility requirements for the applicant, borrower, lender, and project (as applicable) are clarified in 7 CFR part 4280, subpart B and in 7 CFR part 5001 and are summarized in this notice. Failure to meet the eligibility criteria by the time of the competition window will preclude the application from competing until all eligibility criteria have been met.

2. *Eligible Borrowers and Lenders.* To be eligible for the guaranteed loan portion of the program, borrowers must meet the eligibility requirements in 7 CFR 5001.126 and lenders must meet the eligibility requirements in 7 CFR 5001.130.

CFR 4280.113 for RES/EEI grant; 7 CFR 4280.150 for EA/REDA grant; 7 CFR 4280.137 for RES/EEI combined grant and guaranteed loan; and 7 CFR 5001.106 through 5001.108, as applicable, for RES/EEI/EEE loan guarantees. For RES/EEI grants:

a. Applicants are advised against starting construction prior to the Agency's completion of its environmental review process. Even if construction starts before the environmental review process is completed, the application may ultimately be determined to be ineligible.

b. Only projects that have been determined by the Agency to have technical merit, as determined using the procedures specified in 7 CFR 4280.117, are eligible for program funding.

c. Pursuant to the definition of Renewable Energy System in 7 CFR 4280.103, RES projects that include components and ancillary infrastructure such as flexible fuel pumps or electric vehicle charging stations may not be networked or utilize network management software that allows for payment processing as these systems include a mechanism for dispensing energy at retail.

4. *Cost Sharing or Matching.* Matching requirements for each type of funding, as applicable, are outlined in 7 CFR 4280.115 (b) for RES/EEI grant; and 7 CFR 4280.137 for RES/EEI combined grant and guaranteed loan.

5. *Other:*

a. *Ineligible project costs.*

i. Ineligible project costs are defined at: 7 CFR 4280.115(d) for RES/EEI grant and combined grant and guaranteed loans; 7 CFR 4280.152(c) for EA/REDA grant; and 7 CFR 4280.137 (j)(5) and 5001.122 for RES/EEI/EEE loan guarantees.

Pursuant to 7 CFR 4280.115(c) and 7 CFR 4280.152(b), any costs incurred prior to your complete application date are considered ineligible project costs. Final Federal grant share amounts are calculated at the time of reimbursement and are based on the documented total eligible project costs. Awardees must provide evidence of costs incurred at the time of reimbursement. Having ineligible project costs could result in receiving a lower Federal grant share amount than originally requested or approved, or a determination that a project is ineligible.

b. *Other compliance requirements.*

i. *Debarment and Suspension.*

According to 2 CFR parts 180 subpart C

and 2 CFR part 417, participants in covered transactions must verify that the person with whom you intend to do business is not excluded or disqualified. You, as a participant, may not enter into a covered transaction with an excluded person, unless the Federal agency for the transaction grants an exception. B. In determining eligibility for the applicant, project or use of funds, any project applying for funding under the REAP program and proposing to produce, procure, supply or market any component of the hemp plant or hemp related by-products, or provide technical assistance related to such products, must have a valid license from an approved State, Tribal or Federal plan pursuant to section G of the Agricultural Marketing Act of 1946, as amended, to be in compliance with regulations published by the Agricultural Marketing Service at 7 CFR part 990, and meet any applicable U.S. Food and Drug Administration and U.S. Drug Enforcement Administration regulatory requirements. Verification of valid hemp licenses will occur prior to award. In addition, all projects proposing to use biomass feedstock from any part of the hemp plant must demonstrate assurance of an adequate supply of the feedstock.

D. Application and Submission Information

Additionally, all communities within the boundaries of federally recognized Tribes and Alaska Native Villages will also be determined to be Disadvantaged Communities by the Agency. Distressed Community will be determined by the Agency by using the Economic Innovation Group's Distressed Communities Index (which is incorporated into the USDA look-up map), which uses several socio-economic measures to identify communities with low economic wellbeing. To determine if your project is located in a Disadvantaged Community or a Distressed Community, please use the following USDA look-up map: ruraldevelopment.maps.arcgis.com/apps/webappviewer/index.html?id=4acf083be4c44bb7864d90f97de0c788. Points will be awarded if any portion of the project site is located within a disadvantaged or distressed communities.

iii. Environmental benefits, 7 CFR 4280.121(a) is being increased to a maximum of 10 points, and points will be awarded as follows: All projects which do not produce greenhouse gases at the project level will be awarded five (5) points and may be considered for up to a maximum of 10 points. Applicants must provide a detailed narrative or analysis to support additional environmental benefits. One point will be awarded for each of the five sub-criteria for documented environmental benefit supported by the project. Each additional benefit must be directly attributable to the RES/EEI project and assessed at the project level; (1) does not convert farmland; (2) does not contribute to deforestation or addresses fire hazards on forest lands; (3) documented water conservation; (4) complies with EPA's renewable fuel standards; and (5) at least 25 percent of project components are biobased.

iv. Commitment of funds, 7 CFR 4280.121(c) is being decreased to a maximum of 10 points.

v. State Director and Administrator priority points, 7 CFR 4280.121(h) have been modified as shown in item F.1.e. below.

vi. The remaining scoring criteria, energy generated, replaced or saved; previous grantees and borrowers; and simple payback, 7 CFR 4280.121 (b), (d), and (f), respectively, remain as stated in the regulation.

c. EA/REDA grants will be scored based on 7 CFR 4280.155.

d. RES/EEI/EEE guaranteed loans will be scored based on 7 CFR 5001.319 and item F.1.e. below.

e. State Director or Administrator priority points are found in 7 CFR 4280.121(h), 4280.137(h), and 5001.319(g). For the purposes of this notice, the State Director or Administrator at their discretion may award up to 10 priority points maximum. The maximum of 5 points will be awarded for projects which meets the following criterion:

Ensuring all rural residents have equitable access to RD programs and benefits from RD funded projects. Using the Social Vulnerability Index (SVI) Look-Up Map (available at rd.usda.gov/priority-pointsrd.usda.gov/priority-points), an applicant would receive priority points:

iii. The proposed project is in a federally declared major disaster area. Declarations must be within the last 2 calendar years; or

2. *Review and Selection Process.* Each application will be reviewed for completeness. If an application does not meet the definition of complete application, according to 7 CFR 4280.103, the Agency will send a notification identifying those parts of the application that are incomplete, and no further action will be taken on the application.

The Agency will give 15 business days for applicants to provide the missing documentation. The application will be withdrawn, and the applicant notified if the required documentation is not received within the 15 business days or if the information submitted by the deadline is insufficient.

Application processing will continue if all documentation is received timely and is sufficient to meet the definition of a complete application.

Once an application is deemed complete, the Agency will review for applicant and project eligibility as well as for financial and technical feasibility. If the Agency requires additional clarification or documentation, the Agency will send a notification and give a second 15 business day window for the applicant to provide the information

needed for applicant and project eligibility and financial and technical feasibility.

The application will be withdrawn, and the applicant notified if the required information is not received within the 15 business days or if the information submitted by the deadline is insufficient.

Application processing will continue if all information is received timely and is sufficient for determining applicant and project eligibility as well as for financial and technical feasibility. The applicant will then receive a notification of the eligibility review outcome.
