Title of Collection: Mandatory Civil Rights Data Collection.

OMB Control Number: 1870–00504.

Type of Review: A revision of a currently approved ICR.

Respondents/Affected Public: State, Local or Tribal Governments.

Total Estimated Number of Annual Responses: 17,717.

Abstract: The collection, use, and reporting of education data is an integral component of the mission of the U.S. Department of Education (Department). The Department has collected civil rights data about the nation's public schools via the Civil Rights Data Collection (CRDC) since 1968. As with previous CRDC collections, the purpose of the 2025–26 and 2027–28 CRDCs is to obtain vital data related to the civil rights laws' requirement that public local educational agencies (LEA) and elementary and secondary schools provide equal educational opportunity. The Department has analyzed the uses of many data elements collected in the 2020–21 CRDC and sought advice from experts across the Department to refine, improve, and where appropriate, add or remove data elements from the collection. CRDC data definitions and metrics are consistent with other mandatory collections across the Department wherever possible. The Department seeks the Office of Management and Budget's approval under the Paperwork Reduction Act to collect from LEAs the elementary and secondary education data described in the sections of Attachment A. The Department requests that LEAs and other stakeholders review and comment on the proposed changes (detailed in Supporting Statement A, Attachments A–1, A–2, A–3, and A–4, and Attachment B), and respond to the directed questions found in Attachment A–5.

Dated: October 10, 2024.

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice.

SUMMARY: In this notice, the U.S. Department of Energy (DOE) is forecasting the representative average unit costs of five residential energy sources for the year 2024 pursuant to the Energy Policy and Conservation Act (Act). The five sources are electricity, natural gas, No. 2 heating oil, propane, and kerosene.

DATES: The representative average unit costs of energy contained in this notice will become effective November 18, 2024 and will remain in effect until further notice.

FOR FURTHER INFORMATION CONTACT:

Mr. Lucas Adin, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, EE–5B, 1000 Independence Avenue SW, Washington, DC 20585–0121, Telephone: (202) 287–1692, Email: ApplianceStandardsQuestions@ee.doe.gov.

Ms. Emma Shahabi, U.S. Department of Energy, Office of General Counsel, GC–33, 1000 Independence Avenue SW, Washington, DC 20585–0103, Telephone: (202) 586–4789, Email: emma.shahabi@hq.doe.gov.

SUPPLEMENTARY INFORMATION: Section 323 of the Energy Policy and Conservation Act requires that DOE prescribe test procedures for the measurement of the estimated annual operating costs or other measures of energy consumption for certain consumer products specified in the Act. (42 U.S.C. 6293(b)(3)) These test procedures are found in title 10 of the Code of Federal Regulations (CFR) part 430, subpart B.

Section 323(b)(3) of the Act requires that the estimated annual operating costs of a covered product be calculated from measurements of energy use in a representative average use cycle or period of use and from representative average unit costs of the energy needed to operate such product during such cycle. (42 U.S.C. 6293(b)(3) and (b)(4)) The section further requires that DOE provide information to manufacturers regarding the representative average unit costs of energy. (42 U.S.C. 6293(b)(4)) This cost information should be used by manufacturers to meet their obligations under section 323(c) of the Act. Most notably, these costs are used

to comply with Federal Trade Commission (FTC) requirements for labeling. Manufacturers are required to use the revised DOE representative average unit costs when the FTC publishes new ranges of comparability for specific covered products, 16 CFR part 305. Interested parties can also find information covering the FTC labeling requirements at <https://www.ftc.gov/appliances>.

DOE last published representative average unit costs of residential energy in a **Federal Register** notice entitled, “Energy Conservation Program for Consumer Products: Representative Average Unit Costs of Energy”, dated August 28, 2023, 88 FR 58575.

On November 18, 2024, the cost figures published in this notice will become effective and supersede those cost figures published on August 28, 2023. The cost figures set forth in this notice will be effective until further notice.

DOE's Energy Information Administration (EIA) has developed the 2024 representative average unit after-tax residential costs found in this notice. These costs for electricity, natural gas, and No. 2 heating oil are based on simulations used to produce the July 2024, EIA *Short-Term Energy Outlook* (EIA releases the *Outlook* monthly). The representative average unit after-tax costs for propane and kerosene are based on the projected 2024 U.S. residential sector prices found in the *Annual Energy Outlook 2023* (AEO2023) (March 16, 2023). The *Short-Term Energy Outlook* and the *Annual Energy Outlook* are available on the EIA website at <https://www.eia.doe.gov>. For more information on the data sources used in this notice, contact the National Energy Information Center, Forrestal Building, EI–30, 1000 Independence Avenue SW, Washington, DC 20585, Telephone: (202) 586–8800, Email: infoctr@eia.doe.gov.

The 2024 representative average unit costs under section 323(b)(4) of the Act are set forth in Table 1, and will become effective November 18, 2024. They will remain in effect until further notice.
