#### POLICY JUSTIFICATION

##### Romania—F-16 Aircraft Modernization

The Government of Romania has requested to buy equipment and services to modernize thirty-two (32) F-16 Mid-Life Update Block 10/15 aircraft to be procured through third-party transfer from Norway. The equipment includes one hundred twenty-eight (128) LAU-129 Guided Missile Launchers. Also included are KY-58M and KIV-78 cryptographic devices; AN/PYQ-10C Simple Key Loaders; Joint Mission Planning Systems; Night Vision Device (NVD) aviator vision systems and spare Image Intensifier Tubes; Electronic Warfare database support; Classified/Unclassified Computer

Program Identification Number Systems (CPIN) and CPIN Electronic Combat International Security Assistance Program (ECISAP) equipment and support; flight test services; integration and test support and equipment; aircraft and munitions support and support equipment; pilot life support equipment; secure communications equipment, precision navigation, and cryptographic devices; Classified/Unclassified software delivery and support; spare parts, consumables and accessories, and repair and return support; Precision Measurement Equipment Laboratory (PMEL) equipment and support; Aircraft Structural Integrity Program (ASIP) support; maintenance and maintenance support; studies/surveys; Classified/Unclassified publications and technical documentation; U.S. Government and contractor engineering, technical and logistics support services, studies and surveys; and other related elements of logistics and program support. The estimated total cost is \$502 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve Romania's capability to meet current and future threats by bolstering its operational readiness while enhancing air and defense capabilities with a modernized fleet. Romania has F-16s in its inventory and will have no difficulty absorbing these aircraft and equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Fort Worth, TX. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Romania.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
