SUPPLEMENTARY INFORMATION:

OMB Number: 3133–0204.

Title: NCUA Profile—NCUA Form 4501A.

Type of Review: Revision of a currently approved collection.

Abstract: Sections 106 and 202 of the Federal Credit Union Act require federally insured credit unions to make financial reports to the NCUA. Section 741.6 requires insured credit unions to submit a Credit Union Profile (NCUA Form 4501A) and update the Profile within 10 days of election or appointment of senior management or volunteer officials or 30 days of other changes in Program information. The NCUA website further directs credit unions to review and certify their Profiles every Call Report cycle. Credit union information collected through the Profile is essential to the NCUA supervision of federal credit unions and facilitates the NCUA monitoring of other credit unions with share accounts insured by the National Credit Union Share Insurance Fund (NCUSIF).

Form 4501A Credit Union Profile—Proposed Changes and Comments Received

In the July 26, 2024 notice,¹ the NCUA proposed revisions to the Profile (Form 4501A) including revisions to the General Information, Contacts & Roles, Sites, Payment Systems Service Provider Information, Information Technology, Grants, and Merger Partner Registry tabs. The comment period for the July 2024 notice ended on September 24, 2024. The NCUA received ten comment letters, four of which were irrelevant or did not apply to the actual information collection.

General Information Tab

The NCUA proposed to collect the name of the credit union’s anti-money

laundering (AML) monitoring system and separated the question relating to the credit union’s field of membership from the Minority Depository Institution (MDI) question relating to current members. The NCUA also updated the instructions for the General Information tab to reflect these changes.

Two commenters objected to the reporting of the name of the credit union’s automated AML monitoring system because the information can be collected during an examination. Three commenters objected to the public release of this information.

The NCUA concedes this information can be obtained during an examination. However, if the NCUA had this information beforehand, it would enable the agency to align the assigned examiner’s skillset when reviewing the AML monitoring system with the credit union’s program. The NCUA can also tailor their training programs to address specific AML monitoring systems.

As with all information on the Profile, the AML monitoring system must be disclosed only once, then would be pre-populated every quarter. Unless the monitoring system changes, the credit union would not need to report this every quarter. Also, as discussed in the Other Comments Received section, system information collected on the Profile will not be publicly released. After consideration of these comments, the NCUA will proceed with the proposed changes.

Contacts & Roles Tab

The NCUA proposed to add indicators for the email address that officials want to use to receive confidential credit union correspondence. The NCUA also updated the instructions for the Contact & Roles tab to reflect this change.

One commenter objected to receiving confidential correspondence via email. The NCUA revised the Profile and changed the indicators to the preferred email address. The NCUA also updated the instructions to reflect this change. Credit unions can use one of the checkboxes to indicate the official’s preferred email address. Although the NCUA’s Secure File Transfer Portal (SFTP) may be used to share confidential correspondence, when the NCUA or the state supervisory authority shares confidential or other types of correspondence using the SFTP, the recipient receives an email notifying them that items are available in the SFTP. Asking the credit union to identify the official’s preferred email address will ensure the NCUA is contacting the official using the preferred method. Besides this comment, the NCUA did not receive any
