

section 4203(a) of ERISA on or after January 1, 2021; (ii) partial withdrawals under section 4205(a)(1) of ERISA during any three-year testing period beginning on or after January 1, 2019; and (iii) partial withdrawals under section 4205(a)(2) of ERISA on or after January 1, 2021. Under 29 CFR 4203.3(a), a special withdrawal liability may not be put into effect until it is approved by PBGC.

Determinations Regarding the Special Rule

Under section 4203(f) of ERISA and 29 CFR 4203.5(a), PBGC must make two determinations before approving a plan amendment that provides a special withdrawal liability rule. First, based on a showing by the plan, PBGC must determine that the special withdrawal liability rule will apply only to an industry with characteristics that would make it appropriate to exempt employers from withdrawal liability under the rule. Second, PBGC must determine that the special withdrawal liability rule will not pose a significant risk to the insurance system. After review of the information submitted by the Plan, and having received no public comments, PBGC has made the determinations required to approve the Special Rule.

The Special Rule would apply only to a narrow, Plan-specific industry consisting of Original Employers obligated to contribute to the Plan for work performed under a Federal Contract, and only when an Original Employer loses its contract to a Successor Employer that signs an agreement with the Union requiring contributions to the Plan. PBGC determined that the characteristics of this narrowly defined industry make it appropriate to exempt employers from withdrawal liability under the terms of the Special Rule.

Those terms limit the risk of loss to PBGC. The Special Rule only applies if a Successor Employer contributes at the same or a higher contribution rate as the highest contribution rate, and for a comparable number of CBUs, as the Original Employer. The Plan has demonstrated a history of stable or increasing aggregate contributions notwithstanding employer withdrawals, which is consistent with the amount of covered work being undiminished when one federal contractor providing commissary services at a federal facility is replaced by another obligated to contribute to the Plan at the same rate for the same work at the facility.

The Plan is a green-zone plan. Its annual reports for plan years 2011 through 2022 show increasing active

participants and contributions, despite at least a dozen employer withdrawals over that period. The Plan reports that it was 103 percent funded on an actuarial basis as of January 1, 2022.

Conclusion

Based on the Plan's submissions and representations in connection with the request for approval, PBGC has determined that the Special Rule: (1) will apply only to an industry that has characteristics that would make the use of the Special Rule appropriate; and (2) will not pose a significant risk to the insurance system. Therefore, under 29 CFR 4203.5, PBGC approves the plan amendment describing the Special Rule. PBGC's approval is specific to the Plan and to the plan amendment submitted for PBGC's approval. Any plan amendment revising the Special Rule, other than to eliminate it entirely, must be submitted for PBGC's approval.

Members' ongoing compliance with the proposed trade submission requirements; (3) amend certain initial qualifications for direct membership with GSD and the ongoing membership obligations of Netting Members; and (4) makes other revisions to the Rules to clarify, conform and enhance the disclosure of the Rules. Partial Amendment No. 1 makes several changes within the first three categories above.

Within category (1) regarding FICC's proposed adoption of a membership requirement that all Netting Members submit to FICC for clearance and settlement eligible secondary market transactions to which they are a counterparty and defines the scope of such trade submission requirement, Partial Amendment No. 1 makes the following changes. First, as originally proposed, the Proposed Rule Change would require all Netting Members to submit to FICC all Eligible Secondary Market Transactions for novation as a condition of membership.¹² Partial Amendment No. 1 would revise the Proposed Rule Change to clarify that Netting Members would be able to submit Eligible Secondary Market Transactions for novation to any Covered Clearing Agency that provides central counterparty services for transactions in U.S. Treasury securities.¹³ Second, Partial Amendment No. 1 would delete text from the existing rule regarding FICC's initial membership requirements that currently requires Netting Members to, as part of the Membership Agreement, submit to FICC for comparison, pursuant to Rule 5, data on all eligible trades with other Netting Members. Third, Partial Amendment No. 1 would delete certain text from an existing rule regarding FICC's Comparison System, to accommodate the changes to the trade submission requirement. Specifically, it would text stating that a member of FICC's Comparison System must submit to FICC for comparison trade data on all of its trades that are of the type processed by FICC (including trades executed and settled on the same day), calling for delivery of Eligible Securities, between it or an Executing Firm on whose behalf it is acting, and another Member or an Executing Firm on whose behalf it or another Member is acting, that if FICC determines that a Comparison-Only Member has, without good cause, violated its obligations

pursuant to this section, such Comparison-Only Member may be reported to the appropriate regulatory body, placed on the Watch List and/or subject to an additional fee, and that, in addition, FICC may discipline a Comparison-Only Member for a violation of this section of the rule regarding FICC's Comparison System, in accordance with Rule 48.

Within category (2) regarding FICC's proposed adoption of ongoing membership requirements to enable FICC to identify and monitor Netting Members' ongoing compliance with the proposed trade submission requirement, Partial Amendment No. 1 makes the following changes. First, with regard to the proposed Annual Trade Submission Requirement, Partial Amendment No. 1 would add language that a Netting Member shall not be required to submit an Annual Trade Submission Attestation in the same calendar year in which it delivers to FICC its required Triennial Independent Trade Submission Report. Partial Amendment No. 1 would also add language regarding item (iv) of the required attestations in the Annual Trade Submission Requirement that the Netting Member has, at all times during the 12 months prior to the date of the attestation, complied with the trade submission requirement in Rule 5. Specifically, it would amend this item to add that this attestation is other than with respect to matters that the Netting Member has, of the date of the Annual Trade Submission Attestation, disclosed to FICC pursuant to the Rules.

Second, regarding the Triennial Independent Trade Submission Review and Report, Partial Amendment No. 1 would add language stating that FICC will stagger the years in which Netting Members are required to conduct their Triennial Independent Trade Submission Review. Additionally, Partial Amendment No. 1 would add language that FICC shall make available to Netting Members a list of independent third parties that have been approved to conduct a Triennial Independent Trade Submission Review, that Netting Members may request that FICC include additional third parties to such list, at FICC's sole discretion, and that FICC shall make available to Netting Members standard frameworks for the completion of the Triennial Independent Trade Submission Review and Report.

Within category (3) regarding FICC's amendment of certain initial qualifications for direct membership with GSD and the ongoing membership obligations of Netting Members, Partial Amendment No. 1 makes the following

changes. First, Partial Amendment No. 1 would amend the ongoing membership requirements to add language that requires Members to notify FICC if compliance with any membership requirements of FICC would cause a Member to violate an applicable law, rule or regulation. The additional language also states that FICC shall work with such Member to modify a requirement or request so that compliance would not cause such violation.

Second, Partial Amendment No. 1 would also amend the initial membership requirements to add language that a bank or trust company shall have one membership and may apply to be a Netting member through either its parent bank entity or through a branch of the bank.

Partial Amendment No. 1 would not change the purpose of, or statutory basis for the proposed rule change. All other representations in the Initial Filing remain as stated therein and no other changes are being made.
