1. *New Applicant Survey (NAS)—0960–NEW. Background:* The Social Security Administration (SSA) provides income assistance to more than 13 million working-age adults and children with disabilities through the Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI) programs. To evaluate these respondents as they navigate SSA's application process, we are implementing the New Applicant Survey (NAS). The objective of the New Applicant Survey (NAS) is to provide SSA's Office of Research, Demonstration, and Employment Support (ORDES) with information about recent applicants' experience at different stages or touchpoints in the disability application process. SSA will use findings from the survey to inform testable policy interventions to improve the application experience for applicant.

NAS Description: The primary goal of NAS is to help SSA improve our current application process through the use of feedback from the public who use it. The research questions and survey will allow SSA to evaluate current practices and improve upon them. Ultimately, we expect the purpose of this survey will help SSA to implement a better overall application experience for respondents, as they use SSA's systems.
