The approved RMPs close the no-known and low oil and gas development potential areas to future fluid mineral leasing, except for the helium potential area (GJFO), which remains open to leasing. Medium oil and gas development potential areas are closed where they are surrounded by low oil and gas development potential areas within the CRVFO. Medium oil and gas development potential areas that are either adjacent to (CRVFO) or surrounded by (GJFO) high oil and gas development potential areas remain open for oil and gas leasing. The high potential areas remain open for fluid mineral leasing. Within the high potential and open medium potential areas, there are areas closed to fluid mineral leasing due to specific resource concerns. Geothermal resources remain open to leasing, except for those within areas closed to oil and gas leasing due to specific resource concerns, and fluid mineral stipulations in the approved RMPs apply.

The approved RMPs also close five existing designated ACECs to fluid mineral leasing to protect their relevant and important values, including the Glenwood Springs Debris Flow Hazard Zones and Grand Hogback ACECs in CRVFO, and the Atwell Gulch, Indian Creek, and Pyramid Rock ACECs in GJFO. The approved RMPs expand the

existing Grand Hogback ACEC (CRVFO) and Pyramid Rock ACEC (GJFO).

Within the CRVFO, the approved RMP designates the Castle Peak Addition lands with wilderness characteristics unit as a WSA and closes the Thompson Divide Withdrawal Area to oil and gas leasing. Within the GJFO, the approved RMP manages Cone Mountain, Granite Creek, Kings Canyon, Lumsden Canyon, and West Creek units for protection of their wilderness characteristics.

Increased protections for the Roan and Carr Creeks ACEC and Jerry Creek, Mesa/Powderhorn, and Collbran municipal water source areas within the GJFO are provided through application of No-Surface-Occupancy stipulations.

The BLM provided the proposed RMP/final supplemental EIS on June 21, 2024, for a 30-day protest period and received three protest letters and one comment letter. The BLM Assistant Director resolved all protests. Responses to protest issues have been compiled and documented in a Protest Resolution Report (see **ADDRESSES**).

The BLM provided the proposed RMP/final supplemental EIS to the Governor of Colorado for a 60-day Governor's consistency review. No inconsistencies with State or local plans, policies, or programs were identified during the Governor's consistency review of the proposed RMP/final supplemental EIS. No changes to the proposed RMP/final supplemental EIS were necessary as a result of the Governor's consistency review.

Repatriation of the cultural item in this notice to a requestor may occur on or after November 21, 2024. If competing requests for repatriation are received, the Field Museum must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the cultural item are considered a single request and not competing requests. The Field Museum is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and to any other consulting parties.
