BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2024-0101]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter dated September 3, 2024, the Kentucky & Tennessee Railway (K&T), in conjunction with the McCreary County Heritage Foundation, petitioned the Federal Railroad Administration (FRA) for a special approval pursuant to 49 CFR part 215 (Railroad Freight Car Safety Standards), and a waiver of compliance from 49 CFR part 215. FRA assigned the petition Docket Number FRA-2024-0101.

Specifically, K&T requests a special approval pursuant to § 215.203, *Restricted cars*, for 6 flatcars (KT 1701, KT 1703, KT 1004, KT 1005, KT 1006, and KT 1007) and 1 caboose (KT 1) that are more than 50 years from the dates of original construction. K&T also seeks relief from § 215.303, *Stenciling of restricted cars*, on all equipment. The equipment is used in tourist/excursion service, and the flatcars have been converted to carry passengers. K&T stated that the caboose does not carry passengers and is used as “the technical car” in the Polar Express event.

In its petition, K&T stated that the equipment will be operated on 6.5 miles of track on K&T and Big South Fork Scenic Railway. K&T added that in 2023, it handled more than 30,000 passengers and that the equipment is “vital to the ongoing mission of the [McCreary County] Heritage Foundation, which is to educate guests through interpretation of the area’s rich history of coal, timber, and railroading.”

A copy of the petition, as well as any written communications concerning the

petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted at www.regulations.gov. Follow the online instructions for submitting comments.

Communications received by December 23, 2024 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable. Anyone can search the electronic form of any written communications and comments received into any of the U.S. Department of Transportation’s (DOT) dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2024-0099]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on September 5, 2024, Texas & Eastern Railroad (TESR) petitioned the Federal Railroad Administration (FRA)

for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 230 (Steam Locomotive Inspection and Maintenance Standards). FRA assigned the petition Docket Number FRA-2024-0099.

Specifically, TESR requests relief from § 230.98(a)(6) and (7), *Driving, trailing, and engine truck axles—condemning defects*, for some driving journals on steam locomotive TSR 400. The regulations provide that a defect is considered condemning if “any axle [is] worn ½ inch or more in diameter below the original/new journal diameter” except if “any driving axles other than main driving axles with an original or new diameter greater than 6 inches . . . are worn ¾ inch or more in diameter below the original/new diameter.” In its petition, TESR stated that “some driving journals have been turned under the original diameter and are at or under the minimum diameters” given in part 230. TESR added that the journals were last turned prior to TSR 400 being removed from service in the early 2000s, and that the journals “exhibit no indications of appreciable wear since they were last turned.”

TESR requests relief until TSR 400’s 1,472 service day inspection in early 2029, when all wheels will be removed for inspection and possible axle renewal. The locomotive “has experienced no issues regarding hot journals or scouring,” and it is inspected over an inspection pit twice daily during operations, with “all journals, cellars, and pads . . . inspected closely for position, oil, and wear.”

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted at www.regulations.gov. Follow the online instructions for submitting comments.

Communications received by December 23, 2024 will be considered by FRA before final action is taken.

Comments received after that date will be considered if practicable. Anyone can search the electronic form of any written communications and comments received into any of the U.S.

Department of Transportation's (DOT) dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2011-0085]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on August 29, 2024, BNSF Railway Company (BNSF) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 213 (Track Safety Standards). The relevant Docket Number is FRA-2011-0085.

Specifically, BNSF seeks an extension of relief from § 213.109(d)(9), *Crossties*, and § 213.317, *Rail fastening systems*, to allow BNSF to continue using “three-quarter” concrete crossties at certain locations. The current waiver “permits BNSF to operate trains on concrete crossties in which both rail seats are intact, but only one rail seat permits rail fastening as required under the above-cited regulations.” The crossties must be repositioned “end-for-end, so both rails are secured at every other rail seat.”

BNSF stated, in support of its request, that BNSF has maintained an inventory of locations where these crossties are installed and, when replacing these

crossties for normal maintenance, brought the locations into compliance with the appropriate regulations. Additionally, BNSF noted that since the issuance of the waiver, no derailments caused by the crossties have occurred on the subject track segments. BNSF added that no passenger trains operate over the subject locations.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted at www.regulations.gov. Follow the online instructions for submitting comments.

Communications received by December 23, 2024 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Anyone can search the electronic form of any written communications and comments received into any of the U.S. Department of Transportation's (DOT) dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). BILLING CODE 4910-06-P

DEPARTMENT OF THE TREASURY

Office of the Comptroller of the Currency

Agency Information Collection Activities: Information Collection Renewal; Submission for OMB Review; Fiduciary Activities

AGENCY: Office of the Comptroller of the Currency (OCC), Treasury.

ACTION: Notice and request for comment.

SUMMARY: The OCC, as part of its continuing effort to reduce paperwork and respondent burden, invites comment on a continuing information collection, as required by the Paperwork Reduction Act of 1995 (PRA). In accordance with the requirements of the PRA, the OCC may not conduct or sponsor, and the respondent is not required to respond to, an information collection unless it displays a currently valid Office of Management and Budget (OMB) control number. The OCC is soliciting comment concerning the renewal of its information collection titled, “Fiduciary Activities.” The OCC also is giving notice that it has sent the collection to OMB for review.

DATES: Comments must be received by November 21, 2024.

ADDRESSES: Commenters are encouraged to submit comments by email, if possible. You may submit comments by any of the following methods:

- *Email:* prainfo@occ.treas.gov.
- *Mail:* Chief Counsel's Office,

Attention: Comment Processing, Office of the Comptroller of the Currency, Attention: 1557-0140, 400 7th Street SW, Suite 3E-218, Washington, DC 20219.

- *Hand Delivery/Courier:* 400 7th Street SW, Suite 3E-218, Washington, DC 20219.

- *Fax:* (571) 293-4835.

Instructions: You must include “OCC” as the agency name and “1557-0140” in your comment. In general, the OCC will publish comments on www.reginfo.gov without change, including any business or personal information provided, such as name and address information, email addresses, or phone numbers. Comments received, including attachments and other supporting materials, are part of the public record and subject to public disclosure. Do not include any information in your comment or supporting materials that you consider confidential or inappropriate for public disclosure.

Written comments and recommendations for the proposed information collection should also be
