## SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270-653, OMB Control No. 3235-0703]

### Proposed Collection; Comment Request; Extension: Regulation SCI, Form SCI

*Upon Written Request, Copies Available From:* Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 ("PRA") (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information provided for in Regulation Systems Compliance and Integrity ("Regulation SCI") (17 CFR 242.1000-1007) and Form SCI (17 CFR 249.1900) under the Securities Exchange Act of 1934 ("Exchange Act") (15 U.S.C. 78a *et seq.*). The Commission plans to submit this existing collection of information to the Office of Management and Budget ("OMB") for extension and approval.

Regulation SCI requires certain key market participants to, among other things: (1) have comprehensive policies and procedures in place to help ensure the robustness and resiliency of their technological systems, and also that their technological systems operate in compliance with the federal securities laws and with their own rules; and (2) provide certain notices and reports to the Commission to improve Commission oversight of securities market infrastructure.

Regulation SCI advances the goals of the national market system by enhancing the capacity, integrity, resiliency, availability, and security of the automated systems of entities important to the functioning of the U.S. securities markets, as well as reinforcing the requirement that such systems operate in compliance with the Exchange Act and rules and regulations thereunder, thus strengthening the infrastructure of the U.S. securities markets and improving its resilience when technological issues arise. In this respect, Regulation SCI establishes an updated and formalized regulatory framework, thereby helping to ensure more effective Commission oversight of such systems.

Respondents consist of national securities exchanges and associations, registered clearing agencies, exempt clearing agencies, plan processors, and alternative trading systems. There are currently 48 respondents, and the Commission staff estimates that, on average, 2 new respondents may become SCI entities each year, 1 of which would be a self-regulatory organization ("SRO"). Accordingly, Commission staff estimates that over the next three years there will be an average of 50 respondents per year.

In addition, in December 2020, the Commission adopted amendments to Regulation SCI in connection with updates to the national market system for the collection, consolidation, and dissemination of information with respect to quotations for and transactions in national market system ("NMS") stocks ("Infrastructure Amendments"). Specifically, the Commission adopted a definition of "SCI competing consolidator" that will subject competing consolidators to Regulation SCI, after a transition period, if they are above a specified consolidated market data gross revenue threshold.<sup>1</sup> The Infrastructure Amendments increased the number of

respondents to the collections of information in Regulation SCI, and the Commission estimates that seven competing consolidators will meet this definition and be subject to the requirements of Regulation SCI.<sup>2</sup>

Rule 1001(a) requires each SCI entity to establish, maintain, and enforce written policies and procedures reasonably designed to ensure that its SCI systems and, for purposes of security standards, indirect SCI systems, have levels of capacity, integrity, resiliency, availability, and security, adequate to maintain the SCI entity's operational capability and promote the maintenance of fair and orderly markets. The Commission staff estimates that the total annual initial recordkeeping burden for 7 new respondents will be 4,511 hours, and the annual ongoing recordkeeping burden for all 55 respondents will be, on average, 12,760 hours. The Commission staff estimates that the 7 new respondents would incur, on average, an annual initial internal cost of compliance of \$1,696,578, as well as outside legal or consulting costs of \$305,500. In addition, all respondents will incur, on average, an estimated ongoing annual internal cost of compliance of \$4,801,060.

The Commission staff estimates that the total annual initial recordkeeping burden for 7 new respondents will be 1,755 hours, and the annual ongoing recordkeeping burden for all respondents will be, on average, 8,105 hours. The Commission staff estimates that the 7 new respondents would incur an initial internal cost of compliance of \$628,160, as well as outside legal or consulting costs of \$175,500. Rule 1001(c) requires each SCI entity to establish, maintain, and enforce reasonably designed written policies and procedures that include the criteria for identifying responsible SCI personnel, the designation and documentation of responsible SCI personnel, and escalation procedures to quickly inform responsible SCI
