Form Number(s): None.

Type of Request: Extension of a current information collection.

Number of Respondents: 9,386.

Total Annual Burden Hours: 1,251.

Needs and Uses: The Office of National Marine Sanctuaries (ONMS) is requesting an extension of a currently approved information collection.

The evaluation of visitor demographics, experiences, and opinions about visitor centers and exhibits is needed to support the conservation, education, and management goals of ONMS to strengthen and improve the stewardship, sustainable use, and protection of natural, cultural, and historical resources. Under the jurisdiction of ONMS and to satisfy legal mandates, NOAA is authorized to conduct evaluations, such as this information collection, under the American Innovation and Competitiveness Act (section 314(c), 33 U.S.C. 893(a)) to ensure education

programs have measurable objectives and milestones as well as clear, documented metrics for evaluating its programs.

ONMS has identified a lack of information on the effectiveness of its education, outreach, and communications initiatives as they relate to sanctuary/marine national monument visitor centers, exhibits (permanent or traveling/temporary), kiosks, and educational programming offered by its visitor centers and partner facilities.

ONMS is therefore seeking to conduct an optional exit survey to determine if ONMS' visitor centers and exhibits effectively convey ONMS education, outreach and communication initiatives. ONMS is requesting to conduct a survey to evaluate patron acuity to determine successful concept attainment. Conducting thorough evaluations will aid in vital decisions regarding exhibit renovation, new exhibits, interpretation programs, and educational content.

Affected Public: Individuals or households.

Frequency: One time every three years.

Respondent's Obligation: Voluntary.

Legal Authority: American Innovation and Competitiveness Act.
