

enhance the accuracy in the identification of the visitor.

TSA uses the vetting results to determine the suitability of an individual requesting access to the TSA NCR, including whether the individual has a criminal history that would warrant further investigation and review before TSA grants access to the facility. In reviewing the National Crime Information Center vetting results, TSA will consider whether an individual could potentially pose a threat to the safety of TSA employees, contractors, visitors, or the facility. TSA also uses the information to maintain records of access to TSA facilities.

TSA previously used TSA Form 2816A, *Foreign National Visitor Request—Individual* to collect information for individual foreign national visitors and for groups consisting of two or more foreign nationals, TSA Form 2816B, *Foreign National Visitor Request—Group*.

TSA is revising the collection to remove TSA Form 2816A and transition TSA Form 2816B to a web form using SharePoint. This transition will help reduce user burden by incorporating system-populated fields and automatic submissions.

TSA estimates the average annual number of visitors to be 39,213, with an annual time burden to the public of 300 hours.

Dated: October 21, 2024.
