This notice also announces the closure of the registration review case for *Metschnikowia fructicola* strain NRRL Y-27328 (Case Number 6531) because the last U.S. registrations for these pesticides have been canceled. There is no docket number established for this registration review case as all products were cancelled in Case 6531 before the registration review assessments were initiated.

II. Background

EPA is conducting its registration review of the chemical listed in Table 1 of Unit I pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(g) (7 U.S.C. 136a(g)) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. FIFRA section 3(g) provides, among other things, that pesticide registrations are to be reviewed every 15 years. Consistent with 40 CFR 155.57, in its final registration review decision, EPA will ultimately determine whether a pesticide continues to meet the

registration standard in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)). As part of the registration review process, the Agency has completed interim or final registration review decisions for the pesticide in Table 1 of Unit I.

Prior to completing the interim registration review decision in Table 1 of Unit I, EPA posted the proposed interim decision for the chemical and invited the public to submit any comments or new information, consistent with 40 CFR 155.58(a). EPA considered and responded to any comments or information received during these public comment periods in the respective interim decision or final registration review decisions.
