**SUPPLEMENTARY INFORMATION:** The Indian Gaming Regulatory Act (IGRA) established the National Indian Gaming Commission, which is charged with regulating gaming on Indian lands.

Commission regulations (25 CFR part 514) provide for a system of fee assessment and payment that is self-administered by gaming operations.

Pursuant to those regulations, the Commission is required to adopt and communicate assessment rates and the gaming operations are required to apply those rates to their revenues, compute the fees to be paid, report the revenues, and remit the fees to the Commission. All gaming operations within the jurisdiction of the Commission are required to self-administer the provisions of these regulations, and report and pay any fees that are due to the Commission. It is necessary for the Commission to maintain the fee rate to ensure that the agency has sufficient funding to fully meet its statutory and regulatory responsibilities. In addition, it is critical for the Commission to maintain constantly an adequate transition carryover balance to cover any cash flow variations.

Pursuant to 25 CFR part 514, the Commission must also review annually the costs involved in processing fingerprint cards and set a fee based on fees charged by the Federal Bureau of Investigation and costs incurred by the Commission. Commission costs include Commission personnel, supplies, equipment & infrastructure costs, and postage to submit the results to the requesting tribe. The decrease in FY25 fingerprint processing fee is attributable largely to the completion of the Agency's hardware refresh of core networking and server computing devices in FY24 which has reduced the support time for on-premises systems and infrastructure supporting fingerprint processing. In addition, the successful establishment of the CJIS Audit Unit (CAU) within the Division of Technology has significantly decreased the cross-divisional resources previously required to ensure compliance with the Federal Bureau of Investigation Criminal Justice Information Services (FBI CJIS) requirements. FY25 fingerprint processing fee's decrease also reflects the cost savings resulting from the completion of one-time capital investments associated with the Washington, DC headquarters office relocation in FY24. In FY25 the Commission will also continue its

commitment to take necessary measures to comply with the FBI CJIS requirements which ensure the NIGC and participating tribes can continue to use FBI criminal history report information (CHRI) to assist in determining a key employee or primary management official's eligibility for a gaming license.

## DEPARTMENT OF JUSTICE

[OMB Number 1121-0NEW]

### Agency Information Collection Activities: Proposed New Information Collection Activity; Comment Request, Proposed Study Entitled "The Study of Interpersonal Violence Among Young Adults Pilot Project"

**AGENCY:** National Institute of Justice, U.S. Department of Justice.

**ACTION:** 60-Day notice.

**SUMMARY:** The Department of Justice (DOJ), Office of Justice Programs, National Institute of Justice, is submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

**DATES:** The Department of Justice encourages public comment and will accept input until December 27, 2024.

**FOR FURTHER INFORMATION CONTACT:** If you have additional comments, especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Erica Howell, Social Science Research Analyst, Office on Violence and Victimization Prevention, by email at [erica.howell@usdoj.gov](mailto:erica.howell@usdoj.gov) or telephone at (202) 616-8663.

**SUPPLEMENTARY INFORMATION:** Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the National Institute of Justice, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Evaluate whether and, if so, how the quality, utility, and clarity of the information to be collected can be enhanced.
- Minimize the burden of collecting information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g.,
