### Determinations

The construction activities are nearly identical to those analyzed for the initial IHA, as are the method of taking and the effects of the action. The higher vibratory drive time does increase the size of the Level A harassment zones and shutdown zones slightly. This increase in zone sizes, however, does not change the anticipated take numbers analyzed in the initial IHA. In analyzing the effects of the activities for the initial IHA, NMFS determined that the Port of Bellingham's activities will have a negligible impact on the affected species or stocks and that the authorized take numbers of each species or stock were small relative to the relevant stocks (e.g., less than one-third of the abundance of all stocks). Although some marine mammal abundances have changed since the initial IHA, none of this new information affects NMFS' determinations supporting issuance of the initial IHAs. The mitigation measures and monitoring and reporting requirements as described above are nearly identical to the initial IHA.

NMFS has concluded that there is no new information suggesting that our analysis or findings should change from those reached for the initial IHA. Based on the information and analysis contained here and in the referenced documents, NMFS has determined the following: (1) the required mitigation measures will effect the least practicable impact on marine mammal species or stocks and their habitat; (2) the authorized takes will have a negligible impact on the affected marine mammal species or stocks; (3) the authorized takes represent small numbers of marine mammals relative to the affected stock abundances; (4) the Port of Bellingham's activities will not have an unmitigable adverse impact on taking for subsistence purposes as no relevant subsistence uses of marine mammals are implicated by this action, and; (5) appropriate monitoring and reporting requirements are included.

### National Environmental Policy Act

This action is consistent with categories of activities identified in Category of Exclusion B4 (incidental take authorizations with no anticipated serious injury or mortality) of the Companion Manual for NOAA Administrative Order 216-6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that

would preclude this categorical exclusion. Accordingly, NMFS determined that the issuance of the initial IHA qualified to be categorically excluded from further National Environmental Policy Act review. NMFS has determined that the application of this categorical exclusion remains appropriate for this renewal IHA.

### Endangered Species Act

No incidental take of ESA-listed species is authorized or expected to result from this activity. Therefore, NMFS has determined that consultation under section 7 of the ESA is not required for this action.

### Renewal

NMFS has issued a renewal IHA to the Port of Bellingham for the take of marine mammals incidental to the Maintenance and Rehabilitation of the Bellingham Shipping Terminal Project in Bellingham, WA from November 7, 2024 to November 7, 2025.

Dated: October 23, 2024.

## DEPARTMENT OF DEFENSE

### Office of the Secretary

### Notice of Availability of Draft Environmental Impact Statement for the Enhanced Integrated Air and Missile Defense System on Guam

**AGENCY:** Missile Defense Agency (MDA), Department of Defense (DoD).

**ACTION:** Notice of availability.

**SUMMARY:** The MDA, as the lead agency, announces the availability of the Draft Environmental Impact Statement (EIS) (EISX-007-20-MDA-1725955966) for the proposed construction, deployment, and operation and maintenance of an Enhanced Integrated Air and Missile Defense (EIAMD) System on Guam (Proposed Action). The United States Army (USA), the United States Navy (USNAV), the United States Air Force (USAF), and the Federal Aviation Administration (FAA) are cooperating agencies on this Draft EIS. The Draft EIS was prepared in accordance with the National Environmental Policy Act of 1969 (NEPA); the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA; and the agency implementing procedures of MDA, USA, USNAV, USAF, and FAA. The Draft EIS also supports compliance with the National Historic Preservation Act of 1966 (NHPA) and its implementing regulations.

**DATES:** The 75-day public comment period will be from October 25, 2024, to January 8, 2025. Comments must be postmarked or received on or before January 8, 2025 to ensure consideration in the Final EIS.

**ADDRESSES:** Written comments may be submitted by: Email: [info@EIAMD-EIS.com](mailto:info@EIAMD-EIS.com), Online form: [www.EIAMD-EIS.com](http://www.EIAMD-EIS.com), Mail: ManTech International Corporation, Attention: EIAMD EIS Project Support, PMB 403, 1270 N. Marine Corps Drive, Suite 101, Tamuning, Guam 96913-4331. Comments will also be accepted at the open house public meetings. *The public meetings will be held at the following locations:* (1) November 13, 2024, Hågat Mayor's Office Community Center Building 393, Route 2, Hågat, Guam; (2) November 14, 2024, Hilton Guam Resort Micronesian Room, 202 Hilton Road,
