

requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The following activities are associated with the *Child and Family Services and Reviews* (CFSR) collection: CFSR Statewide Assessment; CFSR On-site Review; and the CFSR Program Improvement Plan. The collection of information for review of state child and family services programs (45 CFR 1355.33(b), 1355.33(c) and 1355.35(a)) is to determine whether such programs are in substantial conformity with state plan requirements under titles IV–B and IV–E of the Social Security Act (the Act) and is authorized

by section 1123(a) [42 U.S.C. 1320a–2a] of the Act. The CFSR looks at the outcomes related to safety, permanency and well-being of children served by the child welfare system and at seven systemic factors that support the outcomes. The information collection is needed to monitor state plan requirements under titles IV–B and IV–E of the Act and is required by federal statute. The resultant information will allow ACF to determine if states are in compliance with state plan requirements and are achieving desired outcomes for children and families. If necessary, ACF will require states to revise applicable statutes, rules,

policies, and procedures, and provide proper training to staff, through the development and implementation of program improvement plans. The CFSR reviews not only address conformity with state plan requirements but also assist states in enhancing the capacities to serve children and families. In computing the number of burden hours for this information collection, ACF based the annual burden estimates on ACF’s and states’ experiences in conducting reviews and developing program improvement plans.

Respondents: State Title IV–E Agencies.

SUPPLEMENTARY INFORMATION: On October 16, 2024, CISA published a request for comment on voluntary, draft Product Security Bad Practices guidance (89 FR 83508). In the draft guidance, we provided an overview of product security practices that are deemed exceptionally risky, particularly for organizations supporting critical infrastructure or national critical functions (NCFs), and it provides recommendations for software manufacturers to voluntarily mitigate these risks. The guidance contained in the document is non-binding, and while CISA encourages organizations to avoid these bad practices, the document imposes no requirement on them to do so. The draft guidance is scoped to software manufacturers who develop software products and services, including on-premises software, cloud services, and software as a service (SaaS), used in support of critical infrastructure or NCFs. The request for comment provided for a 45-day comment period, set to close on

December 2, 2024. CISA received requests to extend the deadline given the Thanksgiving holiday. Therefore, the comment period is now open through December 16, 2024.
