BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XE423]

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council’s Summer Flounder, Scup, and Black Sea Bass Monitoring Committee will hold a public webinar meeting.

DATES: The meeting will be held on Tuesday, November 19, 2024, from 9 a.m. until 12 p.m. For agenda details, see **SUPPLEMENTARY INFORMATION**.

ADDRESSES: The meeting will be held via webinar. Connection information will be posted at www.mafmc.org prior to the meeting.

Council address: Mid-Atlantic Fishery Management Council, 800 N State Street, Suite 201, Dover, DE 19901; telephone: (302) 674–2331; www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526–5255.

SUPPLEMENTARY INFORMATION: The Summer Flounder, Scup, and Black Sea Bass Monitoring Committee will meet via webinar to discuss 2025 recreational management measures for all three species. Last year, two-year recreational measures were adopted for summer flounder and scup for 2024–2025, with the intent to review 2025 measures in 2024. For black sea bass, recreational measures were previously set only for 2024. The objectives of this meeting are for the Monitoring Committee to: (1) Review recent recreational fishery performance information and recommendations from the Advisory Panel, (2) Review previously adopted recreational measures for summer flounder and scup and recommend any changes if warranted; and (3) Recommend 2025 recreational measures

for black sea bass. Meeting materials will be posted to www.mafmc.org.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to Shelley Spedden, (302) 526–5251, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 25, 2024.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; NOAA Satellite Customer Questionnaire

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. Public comments were previously requested via the **Federal Register** on July 25, 2024, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: NOAA Satellite Customer Questionnaire.

OMB Control Number: 0648–0227.

Form Number(s): None.

Type of Request: Regular submission [extension of a current information collection].

Number of Respondents: 30.

Average Hours per Response: 6 minutes per response.

Total Annual Burden Hours: 3.

Needs and Uses: This request is for extension of a current information collection.

The National Oceanic and Atmospheric Administration (NOAA)

operates a minimum of four meteorological satellite imagery transmission systems, two from geostationary operational environmental (GOES) satellites and two from Joint Polar Satellite System (JPSS) satellites. In addition, a commercially broadcast data stream and legacy/backup/standby polar-orbiting satellites continue to be operated as their health permits. The data transmitted are available worldwide, and any user can establish a ground receiving station for reception of the data without the prior consent, notification, or other approval from NOAA. With such an open access policy, it is currently not possible to have a comprehensive understanding of the range and numbers of the data users and application of the data received and/or used. The purpose of collecting the information contained in the “Questionnaire” is to satisfy the following objectives: (1) To comply with international agreements such as the Department of Commerce (DOC)/NOAA’s memorandum of understanding (MOU) with the World Meteorological Organization (WMO), so that NOAA can provide environmental satellite data and processed satellite data products to the public domain, and (2) To improve Government efficiencies of data dissemination using cost-saving technologies to minimize the expenditure of personnel and financial resources. The NOAA Policy on Partnerships in the Provision of Environmental Information is also pertinent to this information collection. This policy was developed to strengthen the partnership among government, academia, and the private sector, which provides the nation with high quality environmental information.

The collection of information from a respondent is initiated when an individual contacts National Environmental Satellite, Data, and Information Service (NESDIS) via letter, telephone, fax or email, or when they visit a web page. If the nature of the contact indicates the individual may operate a satellite receiving station for the acquisition of NOAA satellite data or may use NOAA satellite data or services, the individual is requested to complete an on-line electronic questionnaire, which is found on a NOAA internet site. The questionnaire is completed at the respondent’s discretion. The information received is used by NOAA for short-term operations and long-term planning. Collection of this data assists in complying with the terms of the MOU with the WMO, MOU with DOC, and NOAA on areas of
