*The numbers of respondents and the numbers of total responses in the burden table were updated with 2023 OPTN data and reflect increases in the number of organ transplants and changes in the number of respondents (Transplant Centers, OPOs, and Histocompatibility Labs).

**These two forms will not be used once the OPTN Process Data OMB package is approved and implemented. The OPTN Process Data OMB package is new and will be considered separate from this package. We are including these forms in this collection to avoid any lapse in approval of these forms while the OPTN Process Data package is being approved.

***These are new forms.

****If a form has 0.00 under average number of responses, this is an indicator that there were no submissions in calendar year 2023.

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
