i. *FERC Contact*: Jeremy Jessup, (202) 502–6779, Jeremy.Jessup@ferc.gov.

j. *Cooperating Agencies*: With this notice, the Commission is inviting Federal, State, local, and Tribal agencies with jurisdiction and/or special expertise with respect to environmental issues affected by the proposal, that wish to cooperate in the preparation of any environmental document, if applicable, to follow the instructions for filing such requests described in item l below. Cooperating agencies should note the Commission's policy that agencies that cooperate in the preparation of any environmental document cannot also intervene. See 94 FERC ¶ 61,076 (2001).

k. *Deadline for filing comments, motions to intervene, and protests*: November 25, 2024.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, and protests using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208–3676 (toll free), or (202) 502–8659 (TTY). In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include the docket number P–1175–025. Comments emailed to Commission staff are not considered part of the Commission record.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. *Description of Request*: The licensee proposes revising the project boundary associated with the Marmet Development's transmission line. The Marmet Development currently includes two, 46-kilovolt (kV) transmission lines (*i.e.*, circuits) within a single 0.78-mile-long transmission line corridor, which crosses the Kanawha River to its interconnection point at the Belle Substation. To accommodate revised U.S. Army Corps of Engineers' standards, the licensee is proposing to replace two existing tower structures and a portion of the existing transmission circuits, including the portion that crosses the Kanawha River, and to install a new tower structure and new transmission circuits. This proposed modification would change the length of the transmission line right-of-way portion of the corridor to 0.74 miles long. The proposal would add approximately 3.61 acres to the project boundary and remove approximately 1.64 acres, for a net increase of 1.97 acres. The licensee states that the relocation of the transmission line would not change licensed project operations or require in-stream work. The area for the two poles being replaced is disturbed and within the project boundary. The new pole is outside of the project boundary; however, the licensee states land immediately adjacent to the river where the new pole would be located has been substantially modified.

m. *Locations of the Application*: This filing may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1–866–208–3676 or email FERCOnlineSupport@ferc.gov, for TTY, call (202) 502–8659. Agencies may obtain copies of the application directly from the applicant.

n. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

o. *Comments, Protests, or Motions to Intervene*: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those

who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

p. *Filing and Service of Documents*: Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person commenting, protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis. Any filing made by an intervenor must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 385.2010.

q. The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or OPP@ferc.gov.

Dated: October 25, 2024.

Large Loads Co-Located at Generating Facilities; Fourth Supplemental Notice of Commissioner-Led Technical Conference

As announced in the August 2, 2024 Notice in this proceeding, and August 16, 2024, September 10, 2024, and October 10, 2024 supplemental notices in this proceeding, the Federal Energy Regulatory Commission (Commission) will convene a Commissioner-led technical conference in the above-referenced proceeding. The technical conference will take place on Friday, November 1, 2024, from 10:00 a.m. to 3:00 p.m. Eastern Time. The technical conference will be held in-person at the Commission’s headquarters at 888 First Street NE, Washington, DC 20426 in the Commission Meeting Room. The meeting will be available to view online.

The updated agenda for the technical conference is attached to this Supplemental Notice, which includes the program and expected panelists.

The purpose of this technical conference is to discuss generic issues related to the co-location of large loads at generating facilities. The Commission does not intend to discuss at this technical conference any specific proceeding before the Commission, including proceedings that involve similar issues. These proceedings include, but are not limited to:

PJM Interconnection, L.L.C	Docket Nos. ER24–2172–000, ER24–2172–001.
Atlantic City Electric Company	Docket No. ER24–2888–000.
Baltimore Gas and Electric Company	Docket No. ER24–2889–000.
