**RIN 1018–BH17**

**National Wildlife Refuge System; 2024–2025 Station-Specific Hunting and Sport Fishing Regulations**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Final rule.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), open or expand hunting opportunities on 12 National Wildlife Refuges (NWRs). We also close hunting on 111 acres at Crab Orchard NWR so that the area can be repurposed for other recreational uses, including camping. We also make changes to existing station-specific regulations in order to reduce the

regulatory burden on the public, increase access for hunters and anglers on Service lands and waters, and comply with a Presidential mandate for plain-language standards. Finally, the best available science, analyzed as part of this rulemaking, indicates that lead ammunition and tackle have negative impacts on both wildlife and human health. With this final rule, Canaan Valley NWR in West Virginia will require lead-free ammunition for all hunting on the new Big Cove Unit. Additionally, Des Lacs, J. Clark Salyer, Lostwood, and Upper Souris NWRs in North Dakota will require lead-free ammunition for newly opened elk hunting. While the Service continues to evaluate the future of lead use in hunting and fishing on Service lands and waters, this rulemaking does not include any opportunities that increase or authorize the new use of lead.

**DATES:** This rule is effective November 6, 2024.

**SUPPLEMENTARY INFORMATION:**

**Background**

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd–668ee), as amended (Administration Act), closes NWRs in all States except Alaska to all uses until opened. The Secretary of the Interior (Secretary) may open refuge areas to any use, including hunting and/or sport fishing, upon a determination that the use is compatible with the purposes of the refuge and National Wildlife Refuge System (Refuge System) mission. The action also must be in accordance with provisions of all laws applicable to the areas, developed in coordination with
