

## II. Method of Collection

The checklists and templates are collected via both paper and electronic submissions. These checklists and templates, as well as any special conditions incorporated into the terms and conditions at the time of award, supplement the requirements that apply to EDA-funded construction projects.

As a part of this renewal process, EDA plans to make clarifying edits to the series of checklists and templates, thereby facilitating timely completion by the award recipient and approval by EDA. Additionally, EDA developed a collection to help recipients comply with the requirements of the Build America, Buy America provisions of the Infrastructure and Investment Jobs Act (Pub. L. 117–58); updated the environmental narrative form required for all construction projects; and developed a new version of its existing property reporting requirements to accommodate situations unique to Tribal recipients. None of the edits are expected to increase the time burden on the respondent nor do the modifications change the type of collected information.
