Federal Energy Regulatory Commission

[Docket No. AC25-15-000]

Wisconsin Electric Power Company; Notice of Filing

Take notice that on October 31, 2024, Wisconsin Electric Power Company requested from the Chief Accountant of the Federal Energy Regulatory Commission (Commission or FERC) approval to use Account 182.2, Unrecovered Plant and Regulatory Study Costs, of the Commission's Uniform System of Accounts, to account for the retirement of its Oak Creek Power Plant.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or

protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<https://www.ferc.gov>). From the Commission's Home Page on the internet, this information is available on eLibrary. [Project No. 8615-049]

Fiske Hydro, Inc.; Notice of Intent To Prepare an Environmental Assessment

On September 20, 2023, Fiske Hydro, Inc., licensee, filed an application for surrender of its license for the Fiske Mill Hydroelectric Project No. 8615. The project is located on the Ashuelot River, in the town of Hinsdale, Cheshire County, New Hampshire. The project does not occupy federal lands.

To surrender the project, the licensee proposes to: (1) disconnect the generating units from the utility interconnection point; (2) disconnect the turbine drive shafts, and offer the equipment for sale; (3) install service lines to provide power for future dam operation and security needs; (4) close the intake structure at the north abutment; (5) remove transformers; (6) remove any hydraulic fluids from project equipment; and (7) lock and secure the powerhouse. The turbine-generator units may remain in place until sold. No major physical changes to any project features are planned and no ground disturbance would occur as part of the proposed surrender. The Commission issued public notice of the proposed surrender on July 31, 2024.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the project.¹ The planned schedule for the completion of the EA is February 15, 2025. Revisions to the schedule may be made as appropriate. The EA will be issued and made available for review by all interested parties and a 30-day comment period. All comments filed on the EA will be reviewed by staff and considered in the Commission's final decision on the proceeding.

[Project No. 2601-077]

Northbrook Hydro Carolina II, LLC; Notice of Revised Schedule for Environmental Review

On November 16, 2023, as supplemented on March 11, 2024, and April 30, 2024, Northbrook Hydro Carolina II, LLC filed an application to surrender the project license for the Bryson Hydroelectric Project No. 2601. The project is located on the Oconaluftee River in Swain County, North Carolina. The project does not occupy any Federal lands.

The project is located on the Oconaluftee River downstream of the Great Smoky Mountain National Park and the lands of the Eastern Band of Cherokee Indians (Qualla Boundary). The project boundary abuts the Qualla Boundary for 1.5 miles. The proposed mode of surrender would include disconnection from the utility interconnection point and the removal of the generators and turbines. The licensee would offer the generators, control equipment, and wiring for sale following decommissioning, or would properly dispose of the equipment. The proposal includes leaving the dam and associated structures intact and operational. The licensee intends to later deed ownership of the project to Mainspring Conservation Land Trust for potential future removal of the dam after the surrender is final.

Based on the limited number and scope of comments received on the Notice of Application Accepted for Filing, Commission staff is revising the schedule to issue an Environmental Assessment (EA) by November 15, 2024, and for the EA to be issued for a 15-day

public comment period.¹ Revisions to the schedule may be made as appropriate. All comments filed on the EA will be reviewed by staff and considered in the Commission's final decision on the proceeding.

SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork
