SUPPLEMENTARY INFORMATION:

I. Background

Section 4 of the Department of Housing and Urban Development Act of 1965 (HUD Act) (42 U.S.C. 3533(g)(4)) requires the Secretary to appoint an advisory committee of not more than 12 individuals to provide advice to the Director of the Office of Housing Counseling (OHC) regarding the Housing Counseling Program. The membership of the committee must equally represent the mortgage and real estate industry, including consumers and HUD-appointed housing counseling agencies. Each member serves in his or her individual capacity for a term of up to 3 years.

HUD established the Housing Counseling Federal Advisory Committee (HCFAC) on April 14, 2015. The HCFAC provides OHC valuable advice regarding its mission to provide individuals and families with the knowledge they need to obtain, sustain, and improve their housing through a strong network of HUD-approved housing counseling agencies and HUD-certified counselors. The HCFAC, however, does not have any role in reviewing or awarding OHC housing counseling grants or procurement contracts.

The HCFAC is subject to the requirements of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. 1001 *et seq.*). Further information about the HCFAC is available on HUD's website at https://www.hud.gov/program_offices/housing/sfh/hcc/housing_counseling and on HUD Exchange at <https://www.hudexchange.info/programs/housing-counseling/federal-advisory-committee/>.

[Docket No. FWS–R2–ES–2024–N049; FXES1113020000–245–FF02ENEH00]

Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Status Reviews of 38 Species in the Southwest

AGENCY: Fish and Wildlife Service, Interior.
ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service, are conducting 5-year status reviews of 38 animal and plant species under the Endangered Species Act. A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any such information that has become available since the last reviews for the species.

DATES: To ensure consideration, we are requesting submission of new information no later than December 16, 2024. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: For details on how to request or submit information, see Request for Information and How Do I Ask Questions or Provide Information? in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: For information on a particular species, contact the appropriate person or office listed in the table in the **SUPPLEMENTARY INFORMATION** section. For general information, contact Beth Forbus, by telephone at 505–318–8972 or by email at Beth_Forbus@fws.gov.

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

Why do we conduct 5-year reviews?

Under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in the Code of Federal

Regulations (CFR) at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the ESA requires us to review each listed species’ status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species under active review. For additional information about 5-year status reviews, refer to our factsheet at <https://www.fws.gov/project/five-year-status-reviews>.

What information do we consider in our review?

A 5-year status review considers all new information available at the time of the review. In conducting these reviews, we consider the best scientific and commercial data that have become available since the listing determination or most recent status review, such as:

A. Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;

B. Habitat conditions, including but not limited to amount, distribution, and suitability;

C. Conservation measures that have been implemented that benefit the species;

D. Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the ESA); and

E. Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year status review and will also be useful in evaluating the ongoing recovery programs for the species.

Which species are under review?

The species in table 1 are under active 5-year status review.
