This update affects the materials that are available for public inspection at the National Archives and Records Administration (NARA) and the EPA Regional Office.

DATES: This action is effective November 18, 2024.

ADDRESSES: The SIP materials for which incorporation by reference into 40 CFR part 52 is finalized through this action are available for inspection at the following locations: Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Suite 155, Seattle, WA 98101; and *www.regulations.gov*. SUPPLEMENTARY INFORMATION:

I. Background

Each state has a SIP containing the control measures and strategies used to attain and maintain the national ambient air quality standards (NAAQS). The SIP is extensive, containing such elements as air pollution control regulations, emission inventories, monitoring networks, attainment

demonstrations, and enforcement mechanisms.

Each state must formally adopt the control measures and strategies in the SIP after the public has had an opportunity to comment on them and then submit the proposed SIP revisions to the EPA. Once these control measures and strategies are approved by the EPA, and after notice and comment, they are incorporated into the federally approved SIP and are identified in title 40 of part 52, “Approval and Promulgation of Implementation Plans,” of the Code of Federal Regulations (40 CFR part 52). The full text of the state regulation approved by the EPA is not reproduced in its entirety in 40 CFR part 52 but is “incorporated by reference.” This means that the EPA has approved a given state regulation or specified changes to the given regulation with a specific effective date. The public is referred to the location of the full text version should they want to know which measures are contained in a given SIP. The information provided allows the EPA and the public to monitor the extent to which a state implements a SIP to attain and maintain the NAAQS and to take enforcement action for violations of the SIP.

The SIP is a living document which the state can revise as necessary to address the unique air pollution problems in the state. Therefore, the EPA from time to time must take action on proposed revisions containing new or revised state regulations. A submission from a state can revise one or more rules in their entirety, or portions of rules. The state indicates the changes in the submission (such as by using redline/strikethrough text) and the EPA then takes action on the requested changes. The EPA establishes a docket for its actions using a unique Docket Identification Number, which is listed in each action. These dockets and the complete submission are available for viewing on www.regulations.gov.

On May 22, 1997 (62 FR 27968), the EPA revised the procedures for incorporating by reference, into the Code of Federal Regulations, materials approved by the EPA into each SIP. These changes revised the format for the identification of the SIP in 40 CFR part 52, streamlined the mechanisms for announcing the EPA approval of revisions to a SIP, and streamlined the mechanisms for the EPA’s updating of the IBR information contained for each SIP in 40 CFR part 52. The revised procedures also called for the EPA to maintain “SIP Compilations” that contain the federally approved regulations and source-specific permits submitted by each state agency.

The EPA generally updates these SIP Compilations every few years. Under the revised procedures, the EPA must periodically publish an informational document in the rules section of the **Federal Register** notifying the public that updates have been made to a SIP Compilation for a particular state. The EPA began applying the 1997 revised procedures to the Idaho SIP on January 25, 2005 (70 FR 3479). The EPA subsequently published updates to the IBR materials for Idaho on December 28, 2012 (77 FR 76417), April 1, 2015 (80 FR 17333), and July 24, 2020 (85 FR 44741).

- City of Garden City Ordinance (motor vehicle emission control ordinance) (most recently amended 8/13/1996); and
- City of Meridian Ordinance (motor vehicle emissions control ordinance) (city approval date 6/1/1999).

II. EPA Action

In this action, the EPA is providing notification of an update to the materials incorporated by reference into the Idaho SIP as of September 1, 2024, and identified in 40 CFR 52.670(c) and (d). This update includes SIP materials submitted by Idaho and approved by the EPA since the last IBR update. *See* 85 FR 44741 (July 24, 2020). In addition, The EPA is providing notification of the following corrections and clarifying changes to 40 CFR 52.670(c), (d), and (e):

A. Changes Applicable to Paragraph (c)

1. Revising the introductory text of paragraph (c), “EPA approved regulations,” to read “EPA approved laws and regulations”;

2. Replacing the original table entitled “EPA Approved Idaho Regulations and Statutes” with three new tables entitled “Table 1 to Paragraph (c)—State Regulations”, “Table 2 to Paragraph (c)—State Statutes”, and “Table 3 to Paragraph (c)—City and County Codes and Ordinances”;

3. Sorting the entries from the original table into the three new tables;

4. Revising the undesignated heading “Idaho Administrative Procedures Act (IDAPA) 58.01.01—Rules for the Control of Air Pollution in Idaho” to read “Rules for the Control of Air Pollution in Idaho (IDAPA 58.01.01)”;

5. Adding back entries 121 and 122 that were removed in error in the action

on November 19, 2020 (85 FR 73632); and

6. Correcting entries 221 and 222 that should have been revised in the action on November 19, 2020 (85 FR 73632).

B. Changes Applicable to Paragraph (d)

1. Revising the introductory text of paragraph (d), “EPA approved State Source-specific requirements,” to read “EPA approved source-specific requirements”; and

2. Renaming the original table entitled “EPA Approved Idaho Source-Specific Requirements” to read “Table 4 to Paragraph (d)—State Source-Specific Requirements”.

C. Changes Applicable to Paragraph (e)

1. Replacing the original table entitled “EPA-Approved Idaho Nonregulatory Provisions and Quasi-Regulatory Measures” with two new tables entitled “Table 5 to Paragraph (e)—State Provisions Approved but not Incorporated by Reference”, “Table 6 to Paragraph (e)—State Attainment, Maintenance and Other Plans”;

2. Sorting and grouping the entries from the original table into the two new tables;

3. Correcting the entry for “Northern Ada County Air Quality Maintenance Area Second 10-year Carbon Monoxide Limited Maintenance Plan” to list the appropriate geographic area, “Northern Ada County”, instead of “state-wide”; and

4. Correcting the entry for “Regional Haze SIP Revision” to revise text in the explanations column that was included in error.

III. Good Cause Exemption

The EPA has determined that this action falls under the “good cause” exemption in section 553(b)(3)(B) of the Administrative Procedure Act (APA) which, upon finding “good cause,” authorizes agencies to dispense with public participation and section 553(d)(3) which allows an agency to make an action effective immediately (thereby avoiding the 30-day delayed effective date otherwise provided for in the APA). This administrative action simply codifies provisions which are already in effect as a matter of law in Federal and approved state programs, makes corrections and clarifying changes to the tables in the CFR, and makes ministerial changes to the prefatory heading to the tables in the CFR. Under section 553 of the APA, an agency may find good cause where procedures are “impracticable, unnecessary, or contrary to the public interest.” Public comment for this administrative action is “unnecessary”

and “contrary to the public interest” since the codification (and corrections) only reflect existing law. Immediate notice of this action in the **Federal Register** benefits the public by providing the public notification of the updated Idaho SIP Compilation and notification of corrections to the Idaho “Identification of Plan” portion of the CFR. Further, pursuant to section 553(d)(3), making this action immediately effective benefits the public by immediately updating both the SIP Compilation and the CFR “Identification of plan” section (which includes table entry corrections).

IV. Incorporation by Reference

In this document, The EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, The EPA is finalizing the incorporation by reference of regulations promulgated by Idaho, previously approved by the EPA and federally effective before September 1, 2024, contained in 40 CFR 52.670(c), *EPA approved laws and regulations*, and 40 CFR 52.670(d), *EPA approved source-specific requirements*, described in section II. of this preamble. The EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 10 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the Clean Air Act (CAA), the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, The EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 14094 (88 FR 21879, April 11, 2023);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a

substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it approves a state program;

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and

- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA.

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian Tribe has demonstrated that a Tribe has jurisdiction. In those areas of Indian country, the rule does not have Tribal implications and it will not impose substantial direct costs on Tribal governments or preempt Tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Executive Order 12898 (Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, February 16, 1994) directs Federal agencies to identify and address “disproportionately high and adverse human health or environmental effects” of their actions on communities with environmental justice (EJ) concerns to the greatest extent practicable and permitted by law. Executive Order 14096 (Revitalizing Our Nation’s Commitment to Environmental Justice for All, 88 FR 25251, April 26, 2023) builds on and supplements Executive Order 12898 and defines EJ as, among other things, the just treatment and meaningful involvement of all people, regardless of income, race, color, national origin, or Tribal affiliation, or disability in agency decision-making and other Federal activities that affect human health and the environment.

The EPA did not perform an EJ analysis and did not consider EJ in this action. Consideration of EJ is not required as part of this action, and there is no information in the record inconsistent with the stated goal of Executive Order 12898/14096 of achieving EJ for communities with EJ concerns.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

The EPA also believes that the provisions of section 307(b)(1) of the CAA pertaining to petitions for judicial review are not applicable to this action. This is because prior EPA rulemaking actions for each individual component of the Idaho SIP Compilation previously afforded interested parties the opportunity to file a petition for judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of such rulemaking action. Thus, the EPA believes judicial review of this action under section 307(b)(1) is not available.
