[Docket No. FAA–2023–1624; Airspace Docket No. 24–ACE–7]

RIN 2120–AA66

#### Establishment of Class E Airspace; Rose Hill, KS

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action establishes Class E airspace at Rose Hill, KS to support new public instrument procedures.

**DATES:** Effective date 0901 UTC, December 26, 2024. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

**ADDRESSES:** A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at [www.regulations.gov](http://www.regulations.gov) using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year.

FAA Order JO 7400.11J, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at [www.faa.gov/air\\_traffic/publications/](http://www.faa.gov/air_traffic/publications/). You may also contact the

**SUPPLEMENTARY INFORMATION:**

**Authority for This Rulemaking**

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes Class E airspace extending upward from 700 feet above the surface at Cook Airfield, Rose Hill, KS, to support instrument flight rule operations at this airport.

**History**

The FAA published an NPRM for Docket No. FAA 2023–1624 in the **Federal Register** (89 FR 66290; August 15, 2024), proposing to establish the Class E airspace at Rose Hill, KS. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

**Differences From the NPRM**

An FAA database review noted that the incorrect coordinates were used in the NPRM. This Final Rule replaces the incorrect coordinates with the correct coordinates: 37°33’55” N, long 097°10’29” W. This action does not change the airspace dimensions or operating requirements.

**Incorporation by Reference**

Class E airspace designations are published in paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024 and effective

September 15, 2024. FAA Order JO 7400.11J is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11J lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

**The Rule**

This action amends 14 CFR part 71 by establishing Class E airspace upward from 700 feet above the surface within a 6.6-mile radius of Cook Airfield, Rose Hill, KS.

This action supports new public instrument procedures.

**Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**Environmental Review**

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

**I. Discussion**

The Commission is adopting amendments to correct errors in certain Commission rules and forms. Specifically, the amendments correct errors in the formula for calculating yield data reported on Form N–MFP, which requires money market funds to report portfolio and other information to the Commission each month. The amendments also make conforming changes to the risk disclosure statement in rule 482, which requires certain information to be included in mutual

fund advertisements and sales literature. The amendments also conform certain provisions of Form N–1A and Form N–2, forms used by open-end management investment companies (“open-end funds”) and closed-end funds, respectively, to register under the Investment Company Act and to offer their shares under the Securities Act. These amendments reflect recent rule changes requiring open-end funds to transmit more concise annual and semi-annual reports to shareholders. Further, the amendments correct outdated cross-
