

On November 6, 2024, the ITC published its determination pursuant to sections 751(c) and 752(a) of the Act that revocation of the *Orders* would likely lead to the continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁵

Scope of the Orders

The scope of the *Orders* covers certain on the road steel wheels, discs, and rims for tubeless tires, with a nominal rim diameter of 22.5 inches and 24.5 inches, regardless of width. Certain on-the-road steel wheels with a nominal wheel diameter of 22.5 inches and 24.5 inches are generally for Class 6, 7, and 8 commercial vehicles (as classified by the Federal Highway Administration Gross Vehicle Weight Rating system), including tractors, semi-trailers, dump trucks, garbage trucks, concrete mixers, and buses, and are the current standard wheel diameters for such applications. The standard widths of certain on-the-road steel wheels are 7.5 inches, 8.25 inches, and 9.0 inches, but all certain on-the-road steel wheels, regardless of width, are covered by the scope. While 22.5 inches and 24.5 inches are standard wheel sizes used by Class 6, 7, and 8 commercial vehicles, the scope covers sizes that may be adopted in the future for Class 6, 7, and 8 commercial vehicles.

The scope includes certain on-the-road steel wheels with either a “hub-piloted” or “stud-piloted” mounting configuration, and includes rims and discs for such wheels, whether imported as an assembly or separately. The scope includes certain on the road steel wheels, discs, and rims, of carbon and/or alloy steel composition, whether clad or not clad, whether finished or not finished, and whether coated or uncoated. All on-the-road wheels sold in the United States are subject to the requirements of the National Highway Traffic Safety Administration and bear markings, such as the “DOT” symbol, indicating compliance with applicable motor vehicle standards. See 49 CFR 571.120. The scope includes certain on-the-road steel wheels imported with or without the required markings. Certain on-the-road steel wheels imported as an assembly with a tire mounted on the wheel and/or with a valve stem attached are included. However, if the certain on-

the-road steel wheel is imported as an assembly with a tire mounted on the wheel and/or with a valve stem attached, the certain on-the-road steel wheel is covered by the scope, but the tire and/or valve stem is not covered by the scope.

The scope includes rims and discs that have been further processed in a third country, including, but not limited to, the welding and painting of rims and discs from China to form a steel wheel, or any other processing that would not otherwise remove the merchandise from the scope of the proceeding if performed in China. Excluded from the scope are:

- (1) Steel wheels for tube-type tires that require a removable side ring;
- (2) Aluminum wheels;
- (3) Wheels where steel represents less than fifty percent of the product by weight; and
- (4) Steel wheels that do not meet National Highway Traffic Safety Administration requirements, other than the rim marking requirements found in 49 CFR 571.120S5.2.

Imports of the subject merchandise are currently classified under the following Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 8708.70.4530, 8708.70.4560, 8708.70.6030, 8708.70.6060, and 8716.90.5059. Merchandise meeting the scope description may also enter under the following HTSUS subheadings: 4011.20.1015, 4011.20.5020, and 8708.99.4850. While HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the *Orders* is dispositive.

Continuation of the Orders

As a result of the determinations by Commerce and the ITC that revocation of the *Orders* would likely lead to a continuation or recurrence of dumping, countervailable subsidies, and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act and 19 CFR 351.218(a), Commerce hereby orders the continuation of the *Orders*. U.S. Customs and Border Protection will continue to collect AD and CVD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise.

The effective date of the continuation of these *Orders* is November 6, 2024. Pursuant to section 751(c)(2) of the Act and 19 CFR 351.218(c)(2), Commerce intends to initiate the next sunset review of these *Orders* no later than 30 days prior to the fifth anniversary of the date of the last determination by the ITC.

Administrative Protective Order (APO)

This notice also serves as a final reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

These five-year sunset reviews and this notice are in accordance with section 751(c) and 751(d)(2) of the Act, and published pursuant to section 777(i)(1) of the Act and 19 CFR 351.218(f)(4).

Dated: November 12, 2024.

Abdelali Elouaradia,

Deputy Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

International Trade Administration

Renewable Energy and Energy Efficiency Advisory Committee

AGENCY: International Trade Administration, U.S. Department of Commerce.

ACTION: Notice of an open meeting.

SUMMARY: The Renewable Energy and Energy Efficiency Advisory Committee (REEEAC or the Committee) will hold a virtual meeting, accessible to the public online, on Tuesday, December 3, 2024 at the U.S. Department of Commerce in Washington, DC. Registration instructions for the public to attend virtually are provided below.

DATES: Tuesday, December 3, 2024, from approximately 9:30 a.m. to 12 p.m. Eastern Standard Time (EST). Members of the public wishing to participate must register in advance with the Designated Federal Officer (DFO), Cora Dickson, at the contact information below by 5 p.m. EST on Monday December 2, 2024, including any requests to make comments during the meeting or for accommodations or auxiliary aids.

ADDRESSES: To register, please contact Cora Dickson, DFO, Office of Energy and Environmental Industries, Industry

FR 65314, (August 9, 2024); see also *Certain Steel Wheels from the People's Republic of China: Final Results of Expedited Sunset Review of the Countervailing Duty Order*, 89 FR 65319 (August 9, 2024).

⁵ See *Steel Wheels from China; Determinations*, 89 FR 88061 (November 6, 2024).

and Analysis, International Trade Administration, U.S. Department of Commerce at (202) 482-6083; email: Cora.Dickson@trade.gov.

FOR FURTHER INFORMATION CONTACT: Cora Dickson, DFO, Office of Energy and Environmental Industries, Industry and Analysis, International Trade Administration, U.S. Department of Commerce at (202) 482-6083; email: Cora.Dickson@trade.gov. Registered participants joining virtually will be emailed the login information for the meeting, which will be accessible as a livestream via Teams Webinar.

SUPPLEMENTARY INFORMATION:

Background: The Secretary of Commerce established the REEEAC pursuant to discretionary authority and in accordance with the Federal Advisory Committee Act, as amended (5 U.S.C. 1001 *et seq.*), on July 14, 2010. The REEEAC was re-chartered most recently for a two-year term on May 24, 2024. The REEEAC provides the Secretary of Commerce with advice from the private sector on the development and administration of programs and policies to expand the export competitiveness of U.S. renewable energy and energy efficiency products and services. More information about the REEEAC, including the list of appointed members for this charter, is published online at <http://trade.gov/reeeac>.

On December 3, 2024, the REEEAC will hold the first meeting of its current charter term. The Committee will conduct organizational activities and hold initial discussions on topics of interest. The agenda will be made available by November 27, 2024 upon request to Cora Dickson, and the most current version of the agenda will also be made available on the REEEAC website.

The meeting will be open to the public and will be accessible to people with disabilities. All guests are required to register in advance by the deadline identified under the **DATES** caption. Requests for auxiliary aids must be submitted by the registration deadline. Last minute requests will be accepted but may not be possible to fill.

A limited amount of time before the close of the meeting will be available for oral comments from members of the public attending the meeting. Members of the public attending virtually who wish to speak during the public comment period must give the DFO advance notice in order to facilitate their access. To accommodate as many speakers as possible, the time for public comments will be limited to two to five minutes per person (depending on

number of public participants). Individuals wishing to reserve speaking time during the meeting must contact Cora Dickson using the contact information above and submit a brief statement of the general nature of the comments, as well as the name and address of the proposed participant, by 5 p.m. EST on Monday, December 2, 2024. If the number of registrants requesting to make statements is greater than can be reasonably accommodated during the meeting, the International Trade Administration may conduct a lottery to determine the speakers. Speakers are requested to submit a copy of their oral comments by email to Cora Dickson for distribution to the participants in advance of the meeting.

Any member of the public may submit written comments concerning the REEEAC's affairs at any time before or after the meeting. Comments may be submitted via email to the Renewable Energy and Energy Efficiency Advisory Committee, c/o: Cora Dickson, Designated Federal Officer, Office of Energy and Environmental Industries, U.S. Department of Commerce; Cora.Dickson@trade.gov. To be considered during the meeting, public comments must be transmitted to the REEEAC prior to the meeting. As such, written comments must be received no later than 5 p.m. EST on Monday, December 2, 2024. Comments received after that date will be distributed to the members but may not be considered at the meeting.

Copies of REEEAC meeting minutes will be available within 30 days following the meeting.

Man K. Cho,

Deputy Director, Office of Energy and Environmental Industries.

Cast Iron Soil Pipe From the People's Republic of China: Continuation of Antidumping and Countervailing Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the U.S. Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC) that revocation of the antidumping duty (AD) and countervailing duty (CVD)

orders on cast iron soil pipe from the People's Republic of China (China) would likely lead to the continuation or recurrence of dumping, countervailable subsidies, and material injury to an industry in the United States, Commerce is publishing a notice of continuation of these AD and CVD orders.

DATES: Applicable October 24, 2024.

FOR FURTHER INFORMATION CONTACT: Javier Barrientos, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-2243.

SUPPLEMENTARY INFORMATION:

Background

On May 3, 2019, Commerce published in the **Federal Register** the AD and CVD orders on cast iron soil pipe from China.¹ On April 1, 2024, the ITC instituted,² and Commerce initiated,³ the first sunset reviews of the *AD Order* and the *CVD Order*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its reviews, Commerce determined that revocation of the *AD Order* and *CVD Order* would likely lead to continuation or recurrence of dumping and countervailable subsidies and, therefore, notified the ITC of the magnitude of the margins of dumping and net countervailable subsidy rates likely to prevail should the *AD Order*⁴ and *CVD Order*⁵ be revoked.

On October 24, 2024, the ITC published its determinations, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the *AD Order* and *CVD Order* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁶
