[Project No. 2601-077]

Northbrook Carolina II, LLC; Notice of Availability of Final Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed Northbrook Carolina II, LLC (licensee) application for surrender of the license for the Bryson Hydroelectric Project No. 2601 and have prepared an Environmental Assessment (EA) for the proposed surrender.¹ The licensee proposes to surrender the license via severing its interconnection with the grid and leaving the dam in place and operational under the regulation of the North Carolina Division of Environmental Quality State Dam Safety Engineer with the reservoir elevation and discharge remaining the same as previous operations. The Bryson Project consists of a multiple arch dam with multiple spillway and overflow sections, a 38-acre reservoir, and two vertical Francis-type generating units located on the Oconaluftee River in Swain County, North Carolina. The project does not occupy any Federal lands.

The final EA contains Commission staff's analysis of the potential environmental effects of the proposed surrender, alternatives to the proposed action, and concludes that the proposed surrender, with appropriate environmental protective measures,
